everyone has questions

when caring for a young child

now you can dial 2-1-1!

get answers

to questions about a child's development and behavior

get connected

to resources in your community

When you call **2-1-1**, you can speak with trained ***Help Me Grow* Vermont Child Development Specialists who can**

- answer your questions about your child's development, learning and or behavior and connect you to services that support your child and you
- offer tips to help with problems or concerns
- find useful resources in your community to meet your needs
- coordinate with your child's health care provider so that everyone is on the same page

"*HMG* provides the opportunity to *untangle* an early childhood system that is difficult to navigate."

-Becky Gonyea
Executive Director
Vermont Birth to Five

"[HMG will become the] glue for community and stakeholder relationships; it will help people see themselves as part of a larger early childhood system that has many different interconnections."

-Julie Cadwallader Staub
Vermont Grant Director

Family & Community Outreach

Building Bright Futures State and Regional Councils connect families and providers to critical developmental resources and offer opportunities for networking and training.

Child Health Provider Outreach

Via a public-private partnership, the **Vermont Child Health Improvement Program (VCHIP)** and **Vermont Birth to Five** promote comprehensive developmental surveillance and screening training to early learning professionals.

Centralized Phone Access Point

Vermont 2-1-1, a program of the United Ways of Vermont, with close connection to the **Vermont Family Network.** Vermont 2-1-1 offers interpretation services and HMG materials have been translated into 9 languages.

Data Collection & Analysis

The Vermont Department of Health's **Universal Developmental Screening (UDS) Registry** and **VCHIP** provide data collection and analysis. The UDS Registry will provide a state-wide data collection system for screening results.
