Table 2B - Counts of Top 2020 Outpatient Procedures

Procedures displayed include the number of cases for each community hospital's top outpatient surgical procedures by volume for the period of 10/1/2019 to 9/30/2020. Hospital System Number of Cases and Average Gross Charges include all hospitals. For individual hospitals, procedures having fewer than 15 cases are not shown. Blanks in the table indicate that the hospital has fewer than 15 cases for that procedure or the hospital does not perform that procedure. The hospital, however, may perform a similar procedure under a different code which may not be shown. Please call the hospital for more information. Note: the surgical cases shown include some anesthetic procedures for the treatment of pain not connected with surgery.
