SICKLE CELL REQUEST FORM FOR STUDENTS BORN IN VERMONT

IF THE STUDENT WAS NOT BORN IN VERMONT, PLEASE CONTACT THE NEWBORN SCREENING PROGRAM FOR THE STATE IN WHICH THE STUDENT WAS BORN

The NCAA requires college athletes to provide proof of their sickle cell trait status. Newborn screening provides information about the newborn's risk of having a congenital or inherited condition. Newborn screening does not provide diagnostic testing, and newborn screening results are not confirmation of a congenital or inherited condition. Newborn screening is not intended to provide information about an adult's risk for a condition. We instead recommend the student work with their provider to obtain a diagnostic test and receive appropriate counseling regarding the results. By requesting these results the individual below acknowledges the risk in relying on newborn screening results as a means of verifying sickle cell status.
