

**Goal:** Inform strategy selection for the State Health Improvement Plan

1:00 Welcome, agenda review and introductions

1:15 Quick grounding in thinking upstream and about equity

- What is giving rise to these health outcomes?

1:30 Review potential strategies to improve the 5 priority outcomes, 4 social conditions, and structural inequity (rotating tabletop discussions)

- What connections are there with my work?
- What levers do I have to make change?

2:45 Chart walk

- Notice areas of current activity
- Consider opportunities for connecting strategies based on approach and/or population

3:00 Break

3:10 Identify readiness for strategies with equity and populations in mind

- Where do we think there is the most “energy” or “readiness” for action? Which strategies with our priority populations?
- What is the work needed to ensure engage with communities experiencing inequities in meaningful ways to develop a shared agenda?
- What lessons do I have for working with the priority populations based on equity?

3:45 Report out

3:55 Closing: Themes and Cross-Cutting Strategies
