Docket No. MPS 092-0616

ORDER

Respondent's petition for relief from the conditions of her July 6, 2016 Cessation of Practice Agreement is hereby GRANTED with CONDITIONS. Respondent shall be permitted to return to the practice of medicine subject to the following CONDITIONS:

Respondent shall participate fully and in good faith in care, treatment and monitoring under the auspices of the Vermont Practitioner Health Program ("VPH") from August 1, 2017 to August 1, 2020. Respondent expressly agrees that she shall abide fully and in good faith with all provisions of her VPH contract.

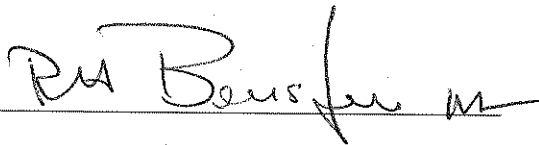

After August 1, 2020, and when Respondent believes that it is appropriate to practice medicine without VPH participation and monitoring, Respondent shall submit a written petition to the South Investigative Committee of the Board of Medical Practice requesting that she be permitted to practice medicine without participation and monitoring by VPH. Respondent will continue VPH participation and monitoring until her petition is approved by the Board of Medical Practice ("the Board").

In the event that Respondent ceases, terminates or interrupts her participation in VPH without the advance written approval of the Board, she must immediately cease practice and notify the Board.

Respondent shall not cease, terminate or interrupt her participation in VPHP without the advance written approval of the Board, following presentation of a written petition from her in this regard.

Respondent agrees and understands that failure to abide by these conditions will constitute a failure to comply with this Order of the Board.

Therefore, this Order is issued and entered by the Board to remove the conditions imposed by the Cessation of Practice Agreement in Docket No. MPS 092-0161⁰⁶¹⁶, and to permit Respondent to resume the practice of medicine subject to the conditions set forth hereinabove.

BY: 

Secretary, Vermont Board of Medical Practice
