Licensing Matter

ORDER

The Board Order of July 11, 2018 providing for the Licensee's return to practice, as modified by the Board Order of January 2, 2019, allows her to petition to be relieved of the requirement for the final year of monitored practice. Upon the recommendation of the North Committee that the Licensee's petition should be granted, it is so ordered. Dr. Biggie has satisfied the conditions of the Order, as amended, and her license shall no longer be designated as "conditioned."
