Licensing Matter

ORDER

Petitioner, Arthur J. Esswein, MD, entered into a non-disciplinary Stipulation and Consent Order for conditions of reentry to the practice of medicine, which was approved by the Board's Order of November 6, 2019. In accordance with the Order, Dr. Esswein now petitions for the removal of the conditions imposed by that Order and requests that he be granted a full and unrestricted license to practice medicine.

Upon the recommendation of the South Investigative Committee that Dr. Esswein's petition should be granted, it is so ordered. The Board finds that as of May 29, 2020, Dr. Esswein satisfied all the conditions and met the requirements for removal of those conditions. The timing of this order is based upon a delay in receipt of documentation confirming completion. As such, Dr. Esswein's petition is approved and he is granted a full and unrestricted license effective the date of this Order.
