

**\* NOTE \***

Due to the pandemic, hospitals were exempted from or given extension for data submission to various federal agencies. Because of this, the data below may not reflect the accurate number of infections reported, which will also affect how SIR was calculated.

Reporting period for CLABSI, CAUTI, Surgical Site Infection after colon surgery, Surgical Site Infection after hysterectomy, MRSA, and C. diff is 1/1/2021-12/31/2021.

Reporting period for Surgical Site Infection after knee replacement surgery and Surgical Site Infection after hip replacement surgery is 10/1/2017-9/30/2018.

**Infections Acquired in Hospitals:**  
Central Line-Associated Blood Stream Infection (CLABSI)
