

CONSUMER UPDATE: Buying Ephedrine & Pseudoephedrine Products in Vermont

The purchase of products that contain ephedrine and pseudoephedrine is now limited by state and federal law. *These ingredients are used to make the illegal and dangerous drug methamphetamine.*

Your favorite over-the-counter cold medicines, weight loss and energy enhancing products are now kept behind the counter. Information on this new law change is available at this store.

To find out more about methamphetamine go to <http://healthvermont.gov> or dial 2-1-1 to reach Vermont 2-1-1, a statewide information and referral system.
