

## VT SIREN Elite Service Leader Check for Elite Service Settings Configuration

✓	Configuration Topic Area	Comments
	<b>Information</b>	
	Other Types of Service	Beyond Transport and Non-Transport 911
	Level of Service	EMT, AEMT, Medic
	Patient Monitoring Capabilities	e.g. Cardiac monitor, 12 lead, ETCO2 etc.
	Service Area Counties	The County(s) for your 911 service area coverage
	Service Area Zip Codes	The zip codes for your 911 service area coverage
	<b>Configuration</b>	
	Agency Logo (prints on Runforms)	The logo that prints when you print out a runform
	Auto-Numbering of Runs	If you do not have an auto-numbering scheme for your agency, please do not change this! Emma has created a standard numbering format for all VT agencies!
	Default Activity Times	Choose None, Current Time, or Arrived At patient's Side as the default time for creating all activities
	Repeat Patients settings	Turn on Repeat patients and manage settings
	<b>Elite Field Configuration</b>	
	General Settings	Posting, Locking and Repeat Patients
	EKG Monitor Settings	See Directions to your particular monitor in the ImageTrend University Site
	<b>Resources Tab</b>	
	Agency Locations	Basically Your Stations- <b>**Important**</b> You must at least set up a "headquarters" location, as this is what the PDF report uses to populate the service name and address when a runform is printed!
	Facilities	You can inactivate any facilities (destinations) that your service does not go to or pick up from so that they do not show up on the run form as a destination option.
	Leave of absence reasons	Optional if your service wants to use this feature
	Shifts	Optional if your service wants to use this feature
	Signatures	The language for various signatures. You can add but cannot delete or edit existing signatures.
	Supporting Agencies & Units	Identify supporting agencies and units so they will display on the runform. Includes choosing transport services for non-transport services to handoff to
	Medical Devices	Optional Can be uploaded to NEMESIS, but can also be helpful to the state to see who has what devices when changing protocols and for services to have a place to keep track of what they have. Does not pull this information into the runform.
✓	Configuration Topic Area	Comments
	Vehicles and Call Signs	Add vehicles to your list and manage the calls signs associated with them
	Zones & Districts	Optional if your service wants to use this feature
	Patient Records	Where the actual repeat patient records are managed
	Supplemental Questions	If your service wishes to add additional questions for your providers

## VT SIREN Elite Service Leader Check for Elite Service Settings Configuration

✓	Configuration Topic Area	Comments
	Areas of Operation	Optional if your service wants to use this feature
	Favorites	For favorite locations (Not available yet, still to be implemented...)
	<b>Tools Tab</b>	
	Worksheets	Build worksheets for your service to use in the runform
	Activate/Inactivate/Copy Forms	Manage the various PDF forms that may be available
	Dynamic Power Tools	Add in or inactivate Power tools for you service
