2.0 Purpose

This rule provides the requirements for the disclosure and reporting of toxic substances that are intentionally added to a children’s product at a level above the PQL produced by the manufacturer or are present in a children’s product produced by the manufacturer as a contaminant at concentrations of 100 parts per million or greater.

3.0 Scope

This rule applies to manufacturers of children products as defined by 18 V.S.A. § 1772(7) offered for sale in the State of Vermont.
