Instructions for Physicians or Physician Assistants or Nurse Practitioners

(Only Healthcare Providers licensed to write a prescription in Vermont can complete this form)

Item #1: Write patient's complete name and date of birth.

Item #2: Document one or more of the patient's qualifying medical condition(s) and ICD-10 diagnosis code(s).

Item #3: Indicate the formula or medical food requested, any special instructions and the intended length of use. It is

WIC's policy to re-evaluate the participant's continued need for the formula on a periodic basis. Physical forms routinely provided by WIC are powder or concentrate. Ready-to-Feed (RTF) formula or medical foods may be authorized when the product is <u>only</u> available in ready-to-feed, when WIC nutrition staff determines and documents that there is an unsanitary or restricted water supply or poor refrigeration,

or the participant has difficulty in correctly diluting the concentrated liquid or powdered formula.

Item #4 The patient will also receive supplemental foods from the WIC Program, appropriate to their participant

category in addition to the formula indicated. Please indicate if **all foods are allowed** or indicate any supplemental foods **contraindicated** by the patient's medical diagnosis. Prescription renewal may be

required periodically, based on medical condition.

Item #5 Providing WIC Authorization allows the WIC Nutrition Professional to determine any future additions or subtractions to the supplemental foods provided by the WIC Program. This authorization does not include

medical formulas or medical food.

Item #6 A Health Care Provider's signature is required. Print or stamp your name, medical office, phone number and address. By signing this form, you are verifying you have seen and evaluated the patient's nutritional needs and determined she has a serious medical condition. Give the completed form to the patient to take

to their local WIC program or fax or mail to the WIC office serving the patient.
