

Midway to 2020 • Report Card

Healthy Vermonters 2020 is our State Health Assessment Plan, presenting priority outcomes and indicators for the decade. This midway to 2020 report gives us a snapshot in time to help answer two questions: *How are we doing? How healthy are we?* Our website at www.healthvermont.gov provides more

interactive and in-depth data. **Performance Scorecards** show how Vermont is doing compared to where we started and our 2020 targets. The **Data Explorer** visualizes 134 population indicators with trend lines and maps comparing data by county, health district, and hospital service area.

Following are Healthy Vermonters targets set for the decade, with a report on progress made midway to 2020, denoted by:

✓ met goal, ◆ new or changed goal, and statistically ✨ better - or - ✖ worse than baseline

A Healthy Lifetime

Family Planning	Baseline/Year	Midway/Year	2020 Target
• % of pregnancies that are intended	54% 2008	49% 2013	65%
• % of 9-12th graders who used most or moderately effective contraception at most recent intercourse . ◆	42% 2011	47% 2015 ✨	55%
• % of high schools that teach key topics related to sexual health education in a required course ◆	85% 2014	87% 2016	100%
