INTRODUCTION
This Manual was developed to provide the necessary information for Vermont hospitals to follow the Vermont Statute\(^1\) and regulation\(^2\) for reporting related to:

- State Comparative Hospital Report Card published on Vermont Department of Health’s website – including the quality of care measures, healthcare associated infection measures, patient safety, nurse staffing, pricing information on common services, and a link to the Green Mountain Care Board’s website for related Act53 financial data.

- Community specific information to be published at individual hospital’s website – including public participation and strategic planning, community health needs assessment/implementation plan/annual progress report, complaint process information, and financial assistance policy.

The Department will notify all hospitals if there are any changes made to the required measures or reporting processes during the year. New measures may be added as follows:

- For measures requiring new data collection by the hospitals, the Department will notify hospitals 180 days prior to the inception date for data collection of new measures.

- For measures included in existing federal or state reporting, the Department will notify hospitals by December 1 of the year prior to the scheduled June 1 publication date.

It is the hospital’s responsibility to inform the Department of any staffing change in order to receive up-to-date information related to Act 53/Hospital Report Card in Appendix D. This includes, but not limited to, the following: CEO, CFO, Infection Preventionist, Quality Director, Communications Officer, Chief Nursing Officer, and IT/Web staff.
