

The Safe Drinking Water Act specifies categories of federally regulated analytes. Laboratories certified to test an analyte group are marked with an “X,” laboratories certified to test for some but not all analytes in a group are marked as “Partial.” Listings with an EPA marking provides the number of the testing method used. Scope sheets are detailed listings of tests labs are certified for.

Note: Laboratories may be added to or deleted from this list at any time.

Laboratories highlighted in green accept private samples.

For any questions, please contact the Laboratory Certification Officer by e-mail at SDWAcert@vermont.gov
