# Symptoms of COVID-19

August 2021

If you have symptoms, even mild ones, contact your health care provider to get tested, even if you are vaccinated or had COVID-19. Your provider will test you at their office or refer you for testing nearby. Stay home and away from other people while you wait for your results.

## Symptoms of COVID-19 include:

- Fever (100.4 °F or higher)
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- New loss of taste or smell
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

## Seek medical care immediately if you have:

- trouble breathing,
- persistent pain or
- pressure in the chest,
- new confusion,
- inability to wake or stay awake, or
- changes in color on your lips, gums, face, around the eyes, or nails.

If you don't have a health care provider, call 2-1-1 to connect to care.
