

## **Full Time and Per Diem Positions Available Emergency Department Paramedic**

Northeastern Vermont Regional Hospital (NVRH) is looking to add Paramedics to Emergency Department team. Under the supervision and/or direction of the ED charge nurse, attending physician or the ED APP, the Paramedic will perform various direct and indirect patient care activities in accordance with policies and procedures. The Paramedic will demonstrate the knowledge and skills necessary to consistently provide care appropriate to the age of the patient, including neonate, pediatric, adolescent, adult and geriatric, and demonstrates knowledge of principles of growth and development. The Paramedic will obtain specimens, document information accurately and promptly, perform phlebotomy, transport patients within the hospital and participate in the care of psychiatric/behavioral patients.

Northeastern Vermont Regional Hospital (NVRH) is located in Vermont's historic Northeast Kingdom, a region known for its unspoiled beauty and four season recreational activities. A not-for-profit independent hospital, NVRH provides primary and preventive care, surgical and specialty services, inpatient and outpatient care, and 24-hour physician-staffed emergency services.

Come be part of a healthcare team offering excellent services within your community! NVRH offers competitive wages and shift differentials. NVRH has a robust benefits package, including student loan repayment, tuition reimbursement, generous paid time off, free gym membership, low cost health/dental/vision plan choices, 401k with company match and more.

\*High School Diploma or equivalent.

\* Current, unrestricted licensure as an EMT-Paramedic required.
