

Data Submission Crosswalk

Vermont Prescription Monitoring System (VPMS) Migration

The Vermont Prescription Monitoring System (VPMS) will migrate to a new platform in early 2027. Data submitters must continue submitting files to Clearinghouse through January 31, 2027. Beginning February 1, 2027, all files must be submitted to LogiCoy and Clearinghouse will no longer accept submissions. The new system will go live on February 3, 2027.

For many Data Submitters, the first file submitted to LogiCoy on February 1 will contain dispensing data for January 31, 2027.

Key dates

- **November 2026:** The new Data Submission Manual will be published, and test accounts can be registered to submit test files and verify configuration.
- **December 2026:** Production accounts may be requested.
- **January 31, 2027:** Last day to submit files to Clearinghouse.
- **February 1, 2027:** All files must be submitted to LogiCoy.
- **February 3, 2027:** VPMS goes live on the new platform.

Questions may be directed to ahs.vdhvpms@vermont.gov.

Glossary of Terms

	Definition
Required	A Required field must be submitted; a prescription record lacking a required field will be rejected and must be corrected and resubmitted.
Optional	An Optional field <u>may be</u> submitted when the information is available.
Situational	A Situational field <u>must be</u> submitted whenever the information is available and applies to the record
Not Required	This field is not required to be submitted.

	Definition
Error	An Error causes the entire prescription record to be rejected when data submitted does not pass validation rules. The record must be corrected and resubmitted.
Warning	A Warning permits the record to be accepted into VPMS when data submitted does not pass validation rules, but the Data Submitter must correct the warning.
