

# St. Albans 2024 BRFSS District Profile – Adult Health

## May 2026

The Adult Health Behavioral Risk Factor Surveillance System (BRFSS) District Profiles include information pertaining to health status, preventative behaviors and health screening, risk behaviors, disease prevalence and select demographics among adults 18 and older.

The Vermont Department of Health acknowledges that data presented in this report are driven by complex upstream factors. Data on the prevalence of certain indicators may be influenced by differences in age distribution, sexual orientation, and gender identity groups.

See [District Profile - Methodology and Definitions](#) and the [2024 BRFSS Annual Report](#) for details specific to this report. If you need help accessing or understanding this information, contact [ahs.vdhbrfss@vermont.gov](mailto:ahs.vdhbrfss@vermont.gov).

### Health Status

Indicator	Vermont %	District %	Estimated # of Adults in District*	Data Years
