# Patient's Perspective of Care Survey Measures 2025 Hospital Report Card

The Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey is the first national, standardized, publicly reported survey of patients' perspectives of their hospital care. HCAHPS (pronounced "H-caps") is also known as the CAHPS Hospital Survey and allows valid comparisons to be made across hospitals

If you need help accessing or understanding this information, contact AHS.VDHHospitalReportCard@vermont.gov.

#### **About star ratings**

- Centers for Medicare & Medicaid Services (CMS) employs all survey responses in the construction of the HCAHPS star ratings.
- To receive star ratings, hospitals must have at least 100 completed surveys in a given four-quarter period.
- Responses to the survey items used in each measure are scored linearly, adjusted, rescaled, averaged across quarters and rounded to produce a 0-100 linear-scaled score.
- The linear scores are converted into the star ratings for the 10 HCAHPS measures.
- The star ratings for each of 10 HCAHPS measures are determined by applying a clustering algorithm to the individual measure scores. More information on the star ratings is available online.

#### CMS collects the following components to construct the ratings

- The star ratings from each of the <u>six HCAHPS composite measures</u> (nurse communication, doctor communication, responsiveness of hospital staff, pain management, communication about medicines, and discharge information.)
- A single star rating for the HCAHPS individual items.
- A single star rating for the HCAHPS global items.
- The eight-star ratings (six composite measure star ratings + star rating for individual items + star rating for global items) are combined as a simple average to form the HCAHPS summary star rating.

1. For Grace Cottage and Springfield, the number of cases/patients is too few to report a star rating.

#### Nurses communicate well with patients more than 94% of the time.

National Mean	96%
State Mean	97%
Brattleboro Memorial Hospital	97%
Central Vermont Medical Center	97%
Copley Hospital	99%
Gifford Medical Center	98%
Grace Cottage Family Health & Hospital 2	
Mt. Ascutney Hospital	99%
North Country Hospital	97%
Northeastern Vermont Regional Hospital	97%
Northwestern Medical Center <sup>3</sup>	94%
Porter Hospital	96%
Rutland Regional Medical Center	97%
Southwestern Vermont Medical Center	98%
Springfield Hospital <sup>4</sup>	97%
University of Vermont Medical Center	97%

- 2.Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.
- 3. For Northwestern the results are based on the hospital or facility's data submissions. CMS approved the hospital or facility's Extraordinary Circumstances Exception request suggesting that results may be impacted.
- 4. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

#### Doctors communicate well with patients more than 93% of the time.
