

Patient's Perspective of Care Survey Measures

2026 Hospital Report Card

The Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey is the first national, standardized, publicly reported survey of patients' perspectives of their hospital care. HCAHPS (pronounced "H-caps") is also known as the CAHPS Hospital Survey and allows valid comparisons to be made across hospitals

About star ratings

- Centers for Medicare & Medicaid Services (CMS) employs all survey responses in the construction of the HCAHPS star ratings.
- To receive star ratings, hospitals must have at least 100 completed surveys in a given four-quarter period.
- Responses to the survey items used in each measure are scored linearly, adjusted, rescaled, averaged across quarters and rounded to produce a 0-100 linear-scaled score.
- The linear scores are converted into the star ratings for the 10 HCAHPS measures.
- The star ratings for each of 10 HCAHPS measures are determined by applying a clustering algorithm to the individual measure scores. [More information on the star ratings is available online.](#)

CMS collects the following components to construct the ratings

- The star ratings from each of the [six HCAHPS composite measures](#) (nurse communication, doctor communication, responsiveness of hospital staff, pain management, communication about medicines, and discharge information.)
- A single star rating for the HCAHPS individual items.
- A single star rating for the HCAHPS global items.
- The eight-star ratings (six composite measure star ratings + star rating for individual items + star rating for global items) are combined as a simple average to form the HCAHPS summary star rating.

1. For Grace Cottage and Springfield, the number of cases/patients is too few to report a star rating.

HealthVermont.gov
 802-863-7200

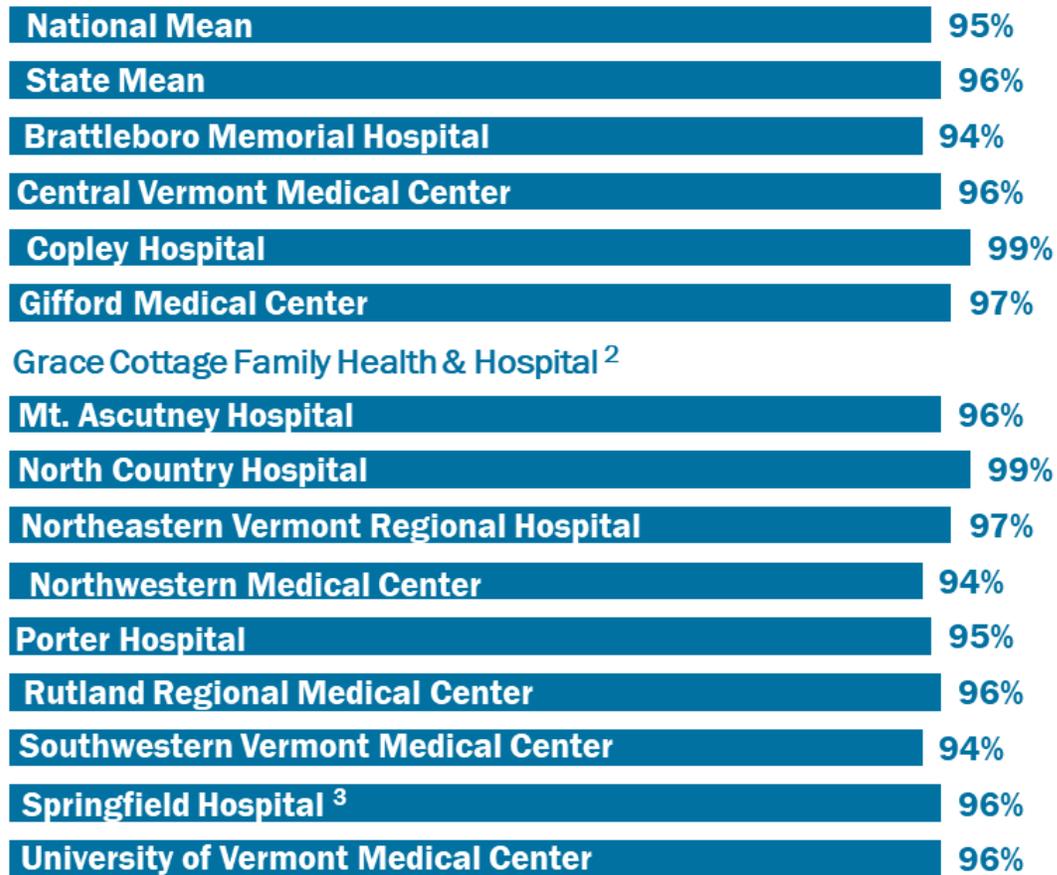

Nurses communicate well with patients more than 93% of the time.

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

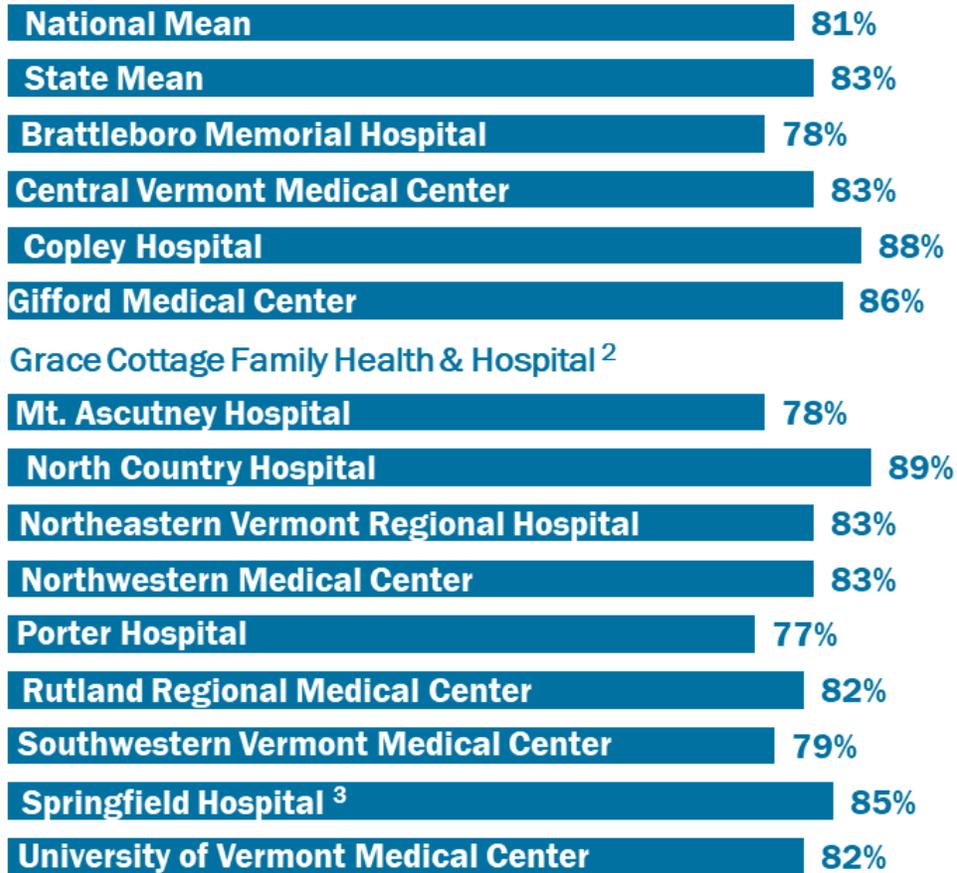

Doctors communicate well with patients more than 94% of the time.

2. Grace Cottage Family Health & Hospital’s number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

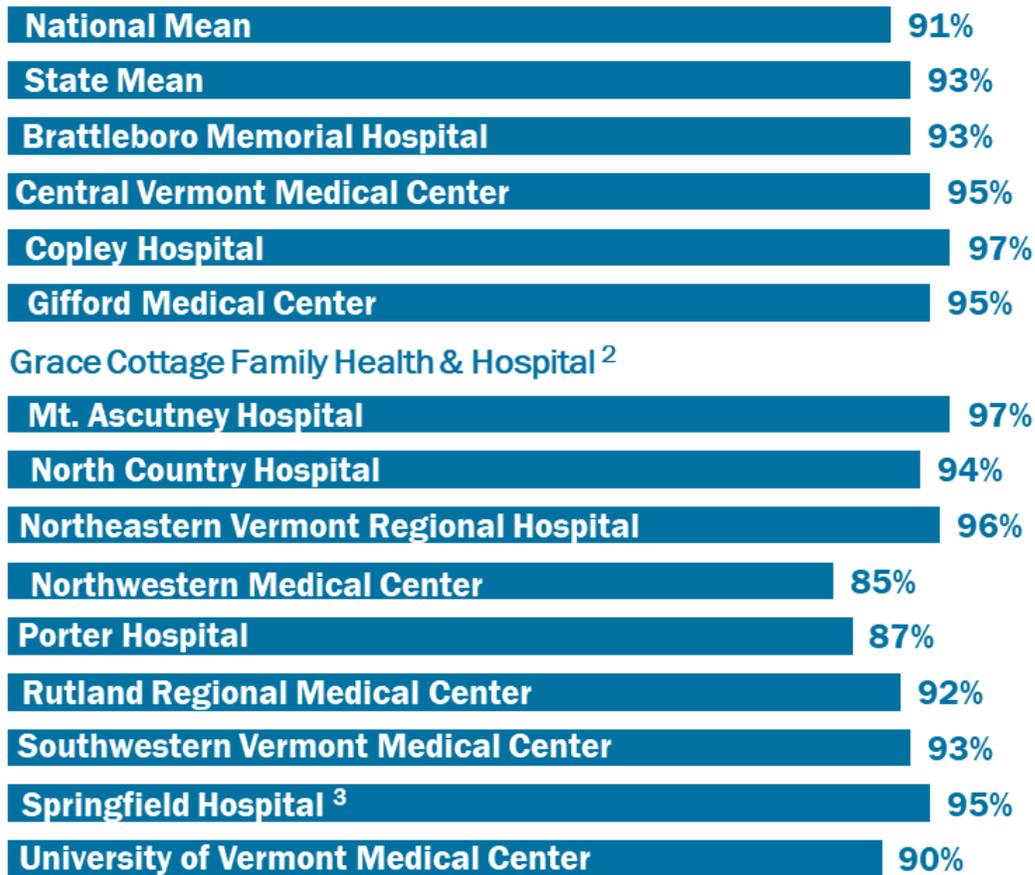

Staff explain medicines to patients before giving them more than 77% of the time.

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

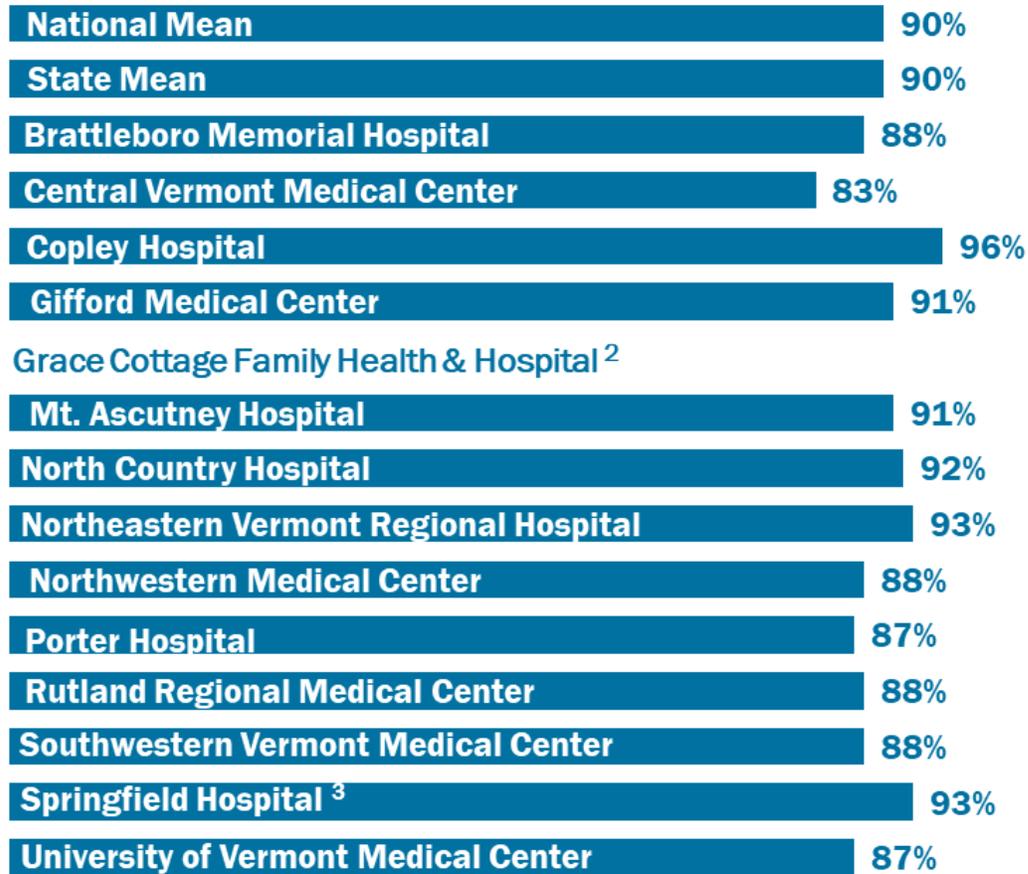

Patient rooms and bathrooms were kept clean more than 85% of the time.

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

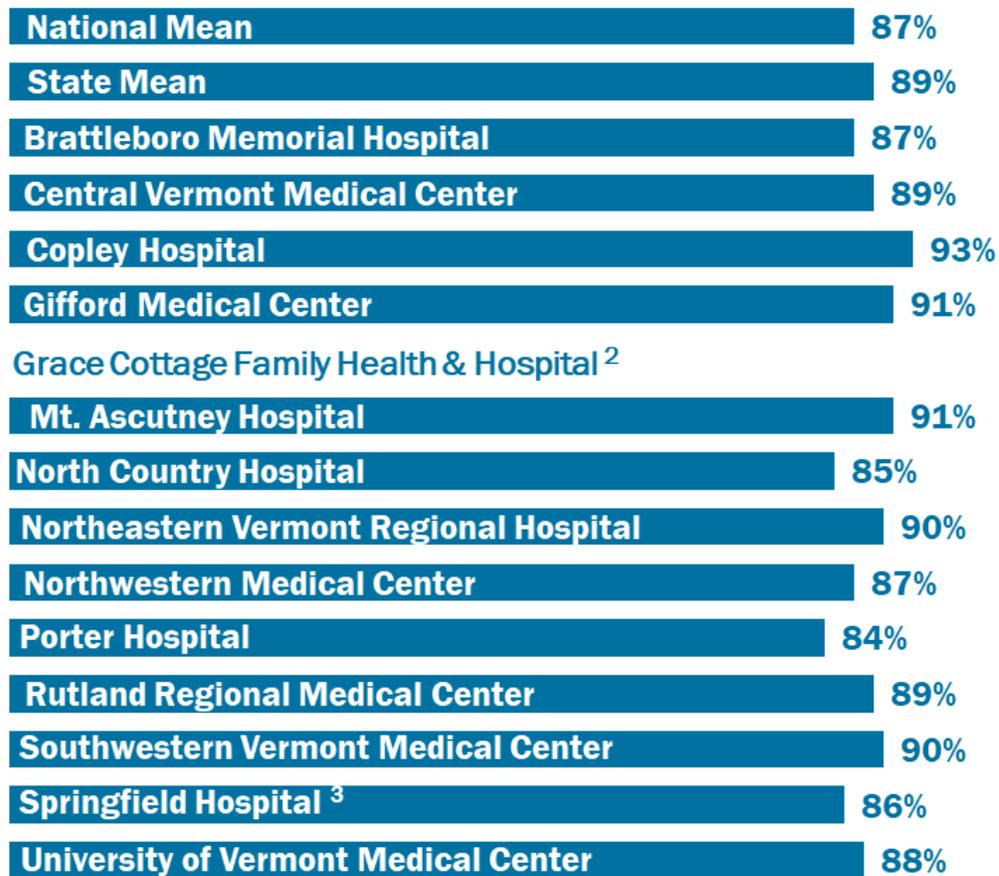

Area around patients' rooms were kept quiet at night more than 83% of the time.

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

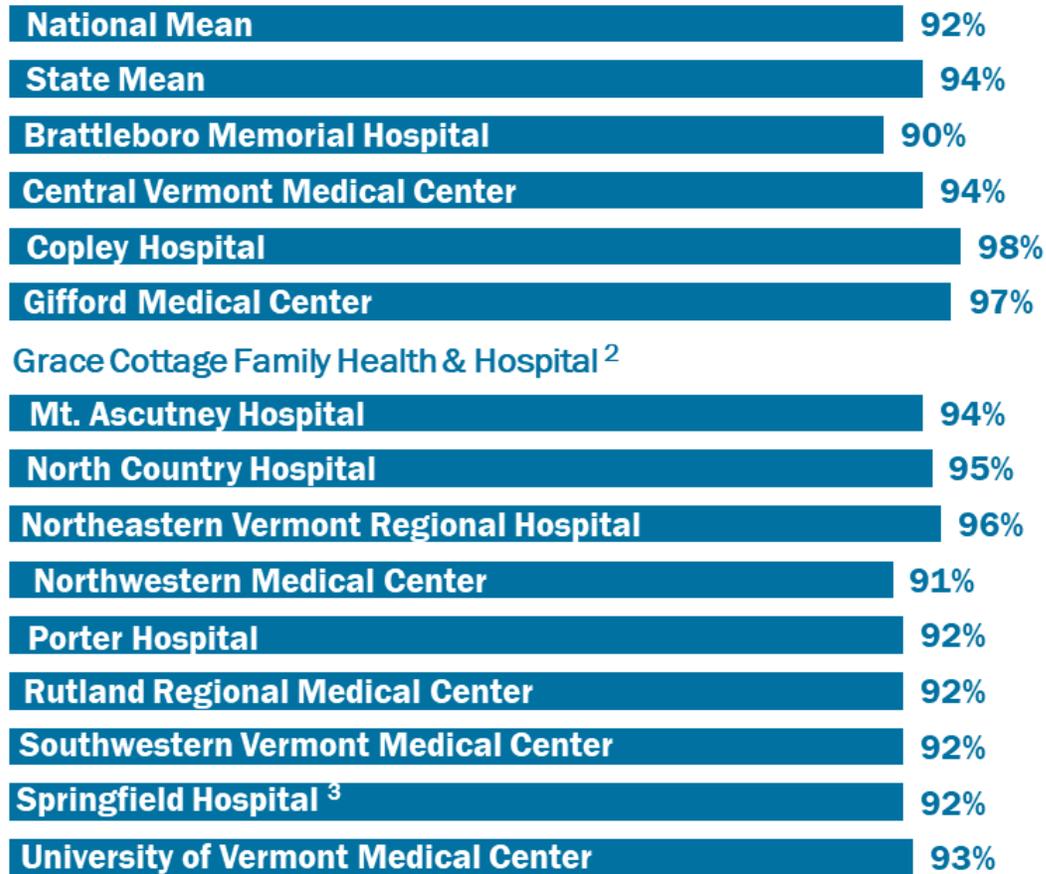

Patients were given information about what to do during their recovery time more than 84% of the time.

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

More than 90% of patients rate hospitals 7 or higher.

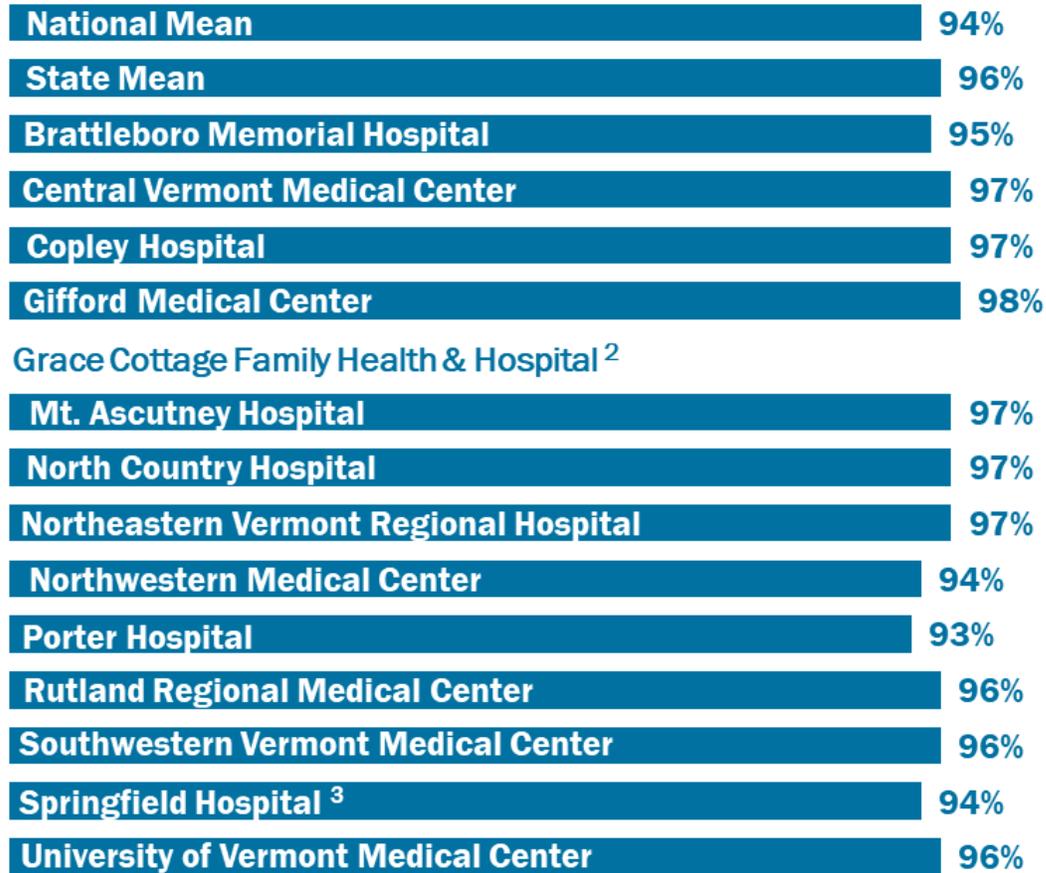

*0 means “worst hospital possible”, and 10 means best hospital possible.”

2.Grace Cottage Family Health & Hospital’s number of cases/patients are too small to report.

3.For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

More than 93% of patients would recommend the hospital to friends and family.

2. Grace Cottage Family Health & Hospital’s number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

Survey Reporting Period: 4/1/2024 – 3/31/2025

Hospital Name	Number of Surveys	Survey Response Rate %
Brattleboro Memorial Hospital	265	21%
Central Vermont Medical Center	502	21%
Copley Hospital	192	21%
Gifford Medical Center	145	27%
Grace Cottage Family Health & Hospital	n/a ²	n/a ²
Mt. Ascutney Hospital	126	25%
North Country Hospital	177	21%
Northeastern Vermont Regional Hospital	267	21%
Northwestern Medical Center	402	23%
Porter Hospital	272	21%
Rutland Regional Medical Center	630	25%
Southwestern Vermont Medical Center	331	22%
Springfield Hospital	76 ³	15% ³
University of Vermont Medical Center	3157	24%

2. Grace Cottage Family Health & Hospital's number of cases/patients are too small to report.

3. For Springfield fewer than 100 patients completed the HCAHPS survey. Use these scores with caution, as the number of surveys may be too low to reliably assess hospital performance.

CMS Reporting Changes

- CMS retired data collection for HCAHPS composites 3 (Responsiveness of Hospital Staff) and 7 (Care Transition) beginning with the January 2026 release, these measures have also been removed from reporting.
