We are always looking for more help. Our requirements are that you are affiliated with a primary service that can attest to your current training and affiliation and that you have a valid VT EMS license.

We ask that you work at least 3 events/shifts per year.

We run about 30 events outside of the fair year-round and then shifts the 10 days of the fair.

Outside of the fair events we offer a 100-dollar stipend per shift worked.

During the fair we offer 100-dollar stipend for every 3 shifts worked and we offer various items like fair tickets for you and your family etc.

Please reach out if you are interested in working in a different environment than you're used to providing quality care to our patients here at the Expo.

Thank you
