6. LEGAL AUTHORITY / ENABLING LEGISLATION:

*(THE SPECIFIC STATUTORY OR LEGAL CITATION FROM SESSION LAW INDICATING WHO THE ADOPTING ENTITY IS AND THUS WHO THE SIGNATORY SHOULD BE. THIS SHOULD BE A SPECIFIC CITATION NOT A CHAPTER CITATION).*

Act 42 (2025) Sec. 6 requires the Department of Health to adopt an emergency rule for the purpose of implementing and administering the Act prior to regular rulemaking.

7. EXPLANATION OF HOW THE RULE IS WITHIN THE AUTHORITY OF THE AGENCY:

18 V.S.A. §4303(a) states, "The Commissioner shall adopt rules pursuant to 3 V.S.A. chapter 25 to establish minimum standards for the safe and sanitary operation of food or lodging establishments or children's camps or any combination thereof and for their administration and enforcement. The rules shall require that an establishment be constructed, maintained, and operated with strict regard for the health of the employees and the public..."

18 V.S.A. §4353 states, "(a)The Commissioner may establish by rule any requirement the Department needs to determine the applicable categories or exemptions for licenses. "

Act 42 (2025) states that "Pending the adoption of permanent rules pursuant to 3 V.S.A. chapter 25 to implement the provisions of this act, the Commissioner of Health shall adopt emergency rules pursuant to 3 V.S.A. § 844, which shall be deemed to meet the emergency rulemaking standard in 3 V.S.A. § 844(a)."

3 V.S.A. §801(b) (11) states "Adopting authority" means, for agencies that are attached to the Agencies of Administration, of Commerce and Community Development, of Natural Resources, of Human Services, and of Transportation, or any of their components, the secretaries of those agencies; for agencies attached to other departments or any of their components, the

commissioners of those departments.

**8. CONCISE SUMMARY (150 WORDS OR LESS):**

The purpose of the rule is to provide the requirements for the safe and sanitary manufacturing, packing, holding, and distributing of human food offered for sale in Vermont. This rulemaking does the following:

- 1) Defines cottage food operation, cottage food operator, and cottage food product;
- 2) Substitutes the more narrow bakery product exemption for a broader exemption categorized as the cottage food exemption and raises the exemption threshold of gross annual sales to \$30,000;
- 3) Amends the existing exemption filing requirement frequency from prior to operation to an annual filing;
- 4) Creates a required annual training for license-exempt food manufacturers; and
- 5) Creates a process for cottage food operators to submit requests to the Department for determination whether the product they are making is a cottage food.

**9. EXPLANATION OF WHY THE RULE IS NECESSARY:**

This rulemaking is necessary for compliance with Act 42 (2025) that requires the Department to adopt emergency rules pursuant to 3 V.S.A. § 844, which shall be deemed to meet the emergency rulemaking standard in 3 V.S.A. § 844(a).

**10. EXPLANATION OF HOW THE RULE IS NOT ARBITRARY AS DEFINED IN 3 V.S.A. § 801(b)(13)(A):**

The changes in the rule are not arbitrary because they are tailored to comply with the specific requirements of Act 42 (2025) that was established to create and implement the cottage food exemption.

**11. LIST OF PEOPLE, ENTERPRISES AND GOVERNMENT ENTITIES AFFECTED BY THIS RULE:**

Cottage food operators manufacturing up to \$30,000 gross annual sales of cottage foods, license-exempt manufacturers producing up to \$10,000 gross annual

sales of non-bakery products, and potential indirect impacts on Agency of Commerce and Community Development (ACCD).

**12. BRIEF SUMMARY OF ECONOMIC IMPACT (150 WORDS OR LESS):**

The raised exemption threshold frees licensed-exempt producers manufacturing up to \$30,000 gross annual sales of cottage foods and/or \$10,000 gross annual sales of non-bakery products from the obligation to obtain a license, pay associated licensure fees, and obtain a commercial facility thereby creating an economic savings. However, an annual training and filing requirement may have a small economic cost to the extent time and resources are diverted to these requirements. There are no anticipated direct impacts on ACCD. Lessening the economic burden on small food manufacturers may have indirect impacts on ACCD to the extent that there is an increase in new small business selling licensed-exempt food products and their participation in ACCD's programming.

## Economic Impact Analysis

### **Instructions:**

In completing the economic impact analysis, an agency analyzes and evaluates the anticipated costs and benefits to be expected from adoption of the rule; estimates the costs and benefits for each category of people enterprises and government entities affected by the rule; compares alternatives to adopting the rule; and explains their analysis concluding that rulemaking is the most appropriate method of achieving the regulatory purpose. If no impacts are anticipated, please specify “No impact anticipated” in the field.

Rules affecting or regulating schools or school districts must include cost implications to local school districts and taxpayers in the impact statement, a clear statement of associated costs, and consideration of alternatives to the rule to reduce or ameliorate costs to local school districts while still achieving the objectives of the rule (see 3 V.S.A. § 832b for details).

Rules affecting small businesses (excluding impacts incidental to the purchase and payment of goods and services by the State or an agency thereof), must include ways that a business can reduce the cost or burden of compliance or an explanation of why the agency determines that such evaluation isn’t appropriate, and an evaluation of creative, innovative or flexible methods of compliance that would not significantly impair the effectiveness of the rule or increase the risk to the health, safety, or welfare of the public or those affected by the rule.

#### 1. TITLE OF RULE FILING:

Manufactured Food Emergency Rule

#### 2. ADOPTING AGENCY:

Agency of Human Services - Vermont Department of Health

#### 3. CATEGORY OF AFFECTED PARTIES:

*LIST CATEGORIES OF PEOPLE, ENTERPRISES, AND GOVERNMENTAL ENTITIES POTENTIALLY AFFECTED BY THE ADOPTION OF THIS RULE AND THE ESTIMATED COSTS AND BENEFITS ANTICIPATED:*

ACCD: No anticipated direct impact associated with this rulemaking. Lessening the economic burden on small food manufacturers may have indirect impacts on ACCD to the extent that there is an increase in new small business selling licensed-exempt food products and their participation in ACCD's programming.

License-exempt producers manufacturing up to \$30,000 gross annual sales of cottage foods and/or \$10,000 gross annual sales of non-bakery products: The raised exemption threshold frees these individuals from the obligation to obtain a license, pay associated licensure fees, and obtain a commercial facility thereby creating an economic savings. A home bakery license costs \$100/yr and a small manufacturing license costs \$175/yr. The approximate cost of renting a commercial manufacturing facility is \$25-35/hour depending on equipment needed. A one day/month kitchen rental would be estimated at approximately \$3,500/year. Because these are very small enterprises making on average \$5,000/year, the Department does not estimate the cost of purchasing a manufacturing facility because these are very small businesses making on average \$5K/year. Based on these approximations, the estimated savings of is approximated \$3,675/year. However, an annual training and filing requirement may have a small economic cost to the extent time and resources are diverted to these requirements.

Department of Health: There is an anticipated minimal impact to revenues for the Department's Food and Lodging Fee Fund. The Department does not collect information about the gross receipts of food manufacturing establishments or establishments that may fall under the newly-created definition of cottage food operators, making it challenging to assign exact impacts to the fee exemptions. Additionally, there is a de minimus impact on the Department to create a training program and determination process of license-exempt food products.

#### 4. IMPACT ON SCHOOLS:

*INDICATE ANY IMPACT THAT THE RULE WILL HAVE ON PUBLIC EDUCATION, PUBLIC SCHOOLS, LOCAL SCHOOL DISTRICTS AND/OR TAXPAYERS CLEARLY STATING ANY ASSOCIATED COSTS:*

There is no anticipated impact on schools.

5. **ALTERNATIVES:** *CONSIDERATION OF ALTERNATIVES TO THE RULE TO REDUCE OR AMELIORATE COSTS TO LOCAL SCHOOL DISTRICTS WHILE STILL ACHIEVING THE OBJECTIVE OF THE RULE.*

This rulemaking does not have an anticipated effect on schools, therefore alternatives have not been considered.

6. **IMPACT ON SMALL BUSINESSES:**

*INDICATE ANY IMPACT THAT THE RULE WILL HAVE ON SMALL BUSINESSES (EXCLUDING IMPACTS INCIDENTAL TO THE PURCHASE AND PAYMENT OF GOODS AND SERVICES BY THE STATE OR AN AGENCY THEREOF):*

License-exempt producers manufacturing up to \$30,000 gross annual sales of cottage foods and/or \$10,000 gross annual sales of non-bakery products: The raised exemption threshold frees these individuals from the obligation to obtain a license and pay associated licensure fees, thereby creating an economic savings. However, an annual training and filing requirement may have a small economic cost to the extent time and resources are diverted to these requirements.

7. **SMALL BUSINESS COMPLIANCE:** *EXPLAIN WAYS A BUSINESS CAN REDUCE THE COST/BURDEN OF COMPLIANCE OR AN EXPLANATION OF WHY THE AGENCY DETERMINES THAT SUCH EVALUATION ISN'T APPROPRIATE.*

The cost/burden on small businesses to comply with the license-exempt requirements are minimal and are explicitly required by Act 42 (2025). The annual training and filing requirements are necessary for the protections to public health.

8. **COMPARISON:**

*COMPARE THE IMPACT OF THE RULE WITH THE ECONOMIC IMPACT OF OTHER ALTERNATIVES TO THE RULE, INCLUDING NO RULE ON THE SUBJECT OR A RULE HAVING SEPARATE REQUIREMENTS FOR SMALL BUSINESS:*

The annual filing and training requirements are explicitly required by Act 42 (2025). There are no alternatives to these mandatory statutory requirements.

9. **SUFFICIENCY:** *DESCRIBE HOW THE ANALYSIS WAS CONDUCTED, IDENTIFYING RELEVANT INTERNAL AND/OR EXTERNAL SOURCES OF INFORMATION USED.*

The estimate is based on information available to the  
Department.

## Environmental Impact Analysis

### **Instructions:**

In completing the environmental impact analysis, an agency analyzes and evaluates the anticipated environmental impacts (positive or negative) to be expected from adoption of the rule; compares alternatives to adopting the rule; explains the sufficiency of the environmental impact analysis. If no impacts are anticipated, please specify “No impact anticipated” in the field.

Examples of Environmental Impacts include but are not limited to:

- Impacts on the emission of greenhouse gases
- Impacts on the discharge of pollutants to water
- Impacts on the arability of land
- Impacts on the climate
- Impacts on the flow of water
- Impacts on recreation
- Or other environmental impacts

#### 3. GREENHOUSE GAS: *EXPLAIN HOW THE RULE IMPACTS THE EMISSION OF GREENHOUSE GASES (E.G. TRANSPORTATION OF PEOPLE OR GOODS; BUILDING INFRASTRUCTURE; LAND USE AND DEVELOPMENT, WASTE GENERATION, ETC.):*

No anticipated impact.

#### 4. WATER: *EXPLAIN HOW THE RULE IMPACTS WATER (E.G. DISCHARGE / ELIMINATION OF POLLUTION INTO VERMONT WATERS, THE FLOW OF WATER IN THE STATE, WATER QUALITY ETC.):*

There may be potential wastewater impacts associated with increased cottage food production. Because cottage food is defined as food produced in a home kitchen, the anticipated economic impact would affect homeowners. Depending on the nature and volume of the food products being manufactured, there could be adverse effects to the existing potable water supply and wastewater system serving the home. Cottage food production may significantly increase the amount of potable water

required for food preparation, that may exceed the capacity of the home's existing onsite potable water supply and adversely impact the quantity of the potable water available for use and consumption by household residents. There is no anticipated impact from cottage food producers on public water systems due to typical safety factors utilized in the design of public water systems. Similarly, adding significant bakery wastewater can increase the total volume discharged which the wastewater (septic) system may not be designed to handle, and may also increase the organic strength of the wastewater discharged to the drain field, leading to the possibility of accelerated septic system failure. Cottage food producers with failing septic systems would be a hazard to human health and may impact drinking water wells or surface water bodies. There is no anticipated wastewater impact for cottage food producers on sewer systems due to sewer systems design to handle large volume of wastewater generated by larger populations.

5. **LAND:** *EXPLAIN HOW THE RULE IMPACTS LAND (E.G. IMPACTS ON FORESTRY, AGRICULTURE ETC.):*

No anticipated impact.

6. **RECREATION:** *EXPLAIN HOW THE RULE IMPACTS RECREATION IN THE STATE:*

No anticipated impact.

7. **CLIMATE:** *EXPLAIN HOW THE RULE IMPACTS THE CLIMATE IN THE STATE:*

No anticipated impact.

8. **OTHER:** *EXPLAIN HOW THE RULE IMPACT OTHER ASPECTS OF VERMONT'S ENVIRONMENT:*

No anticipated impact.

9. **SUFFICIENCY:** *DESCRIBE HOW THE ANALYSIS WAS CONDUCTED, IDENTIFYING RELEVANT INTERNAL AND/OR EXTERNAL SOURCES OF INFORMATION USED.*

The estimate is based on information from neighboring states with cottage food laws and regulations including the Rhode Island Department of Health and Connecticut Department of Consumer Protection. Additionally, the Department used information from the Association of Food and Drug Officials to conduct our analysis.
