

We recognize schools that provide free dental services to students, with the goal of improving oral health for all Vermont children.

Participating schools fall into the following tiers:

## Tier 1

- On-site dental screenings
- Dental health education
- Help making dental appointments

## Tier 2

- On-site dental screenings
- Help making dental appointments
- Help getting to and from dental appointments
- Dental health education

## Tier 3

- On-site screenings and treatments to help prevent and stop tooth decay
- Help making dental appointments
- Dental health education

## Tier 4

- On-site screenings and treatments to help prevent and stop tooth decay
- Dental sealants (a protective coating for back teeth)
- Help making appointments for more advanced dental care like fillings

## Tier 5

- Preventive dental services and treatments on school premises
- Restorative dental services such as fillings on school premises. This is the only tier that provides restorative services like dental fillings.

Joining the 802 Smiles Network means that your school is part of a growing movement to expand access to oral health care for all Vermont children.
