

Attention PAs, RAs & AAs

License and Certification renewal for Physician Assistants, Radiologist Assistants and Anesthesiologist Assistants starts October 31, 2017.

Beginning this year, the Board now requires our supervised licensees/certificate holders to submit all documentation at once. The renewal packet must include:

- * the employment contract,
- * the primary supervising statement,
- * all secondary supervising statements,
- * and the delegation agreement.

All signatures must be original and must be signed on or after October 31, 2017. If you work at more than one site, please gather all the paperwork from each site and send it in one packet.

This is being required because piecemeal receipt of the documentation greatly increases the workload for Board staff, leads to confusion, and interferes with our ability to issue renewal documents timely and efficiently.

Please contact Tracy Hayes if you have any questions about the renewal process:
