

Waaxda Caafimaadka Vermont Talaalka Labaad ee COVID-19 Foomka Ogolaanshaha

Magaca Bukaanka: _____ Taariikhda Dhalashada: _____

Waxaa Baahiyay Xarunta Ka hortaga iyo Xakamaynta Xanuunka (Centers for Disease Control and Protection, CDC):

Waxyaabaha talaalka COVID-19 ee la isku badali karo

Wixii talaalka COVID-19 ah ee FDA ay ansixiso waxa la isticmaali karaa marka: ACID ayna sheegin doorbiditaanka shayga. Laakiin, talaalka COVID-19 la **iskuma** badali karo. Amaanka iyo wax ku oolnimada taxanaha milanka la isku daray lama qiimaynin. Labada talaal ee taxanaha ah waa in aan isku shay laga qaadan.

Xaalado laga soo reebo oo waxyaabaha talaalka mRNA la bixiyo talaalka kowaad laguma salayn karo ama iminka lama heli karo, wixii talaalka COVID-19 ee mRNA ee la heli karo waxaa la bixin karaa iyada oo loo dhaxaysiinayo ugu yaraan 28 maalmood marka xadiga kowaad ee taxanaha talaalka COVID-19 ee mRNA la qaato. Hadii ay dhacdo in si kumeel gaadh ah loo waayo isla talaalka mRNA, waxaa la doorbidaa in dib loo dhigo qaadashada talaalka labaad (ilaa 6 todobaad) si isla talaalkii loo qaado halkii la isku dari lahaa taxanaha iyada oo la adeegsanayo waxyaabo kala duwan. Hadii laba talaal oo kala duwan oo talaalada COVID-19 ee mRNA la bixiyo xaaladan oo kale (ama aan loo qastiyin), talaal labaad oo isla talaalkaas ah laguma taliyo in la qaato wakhtigan. Dadkaas waxaa loo arkaa inay dhamaysteen talaalkooda COVID-19 ≥ 2 todobaad kadib marka ay qaateen talaalkooda labaad ee talaalka mRNA.

Amaanka iyo wax ku oolnimada talaalka COVID-19 ee Janssen ee la bixiyo kadib marka talaalka COVID-19 ee mRNA aan la bixin. Laakiin, marar yar, xaalada qaar halka bukaanku uu qaato talaalka kowaad ee talaalka COVID-19 ee mRNA laakiin uu dhamaysan kari waayo taxanaha isla talaalkaas ama mid kale oo ah talaalka COVID-19 ee mRNA (sida, maadaama oo uu iska hor imanayo), talaal COVID-19 kaliya ah oo Janssen ah ayaa la isla eegi kara iyada oo ugu yaraan loo dhaxaysiinayo 28 maalmood marka talaalka COVID-19 ee mRNA ee kowaad la isa siiyo. Bukaanka la siiyay talaalka COVID-19 ee Janssen kadib markii ay qaateen talaalkii kowaad ee COVID-19 mRNA waa in loo arkaa inay qaateen talaal shaqaynaya, oo mar kaliya ah oo ah Janssen-oo aanu ahayn taxane talaal oo la isku daray-oo waxaana loo arkaa inay si wanaagsan uga talaalan yihiin COVID-19 ≥ 2 todobaad kadib marka ay qaataan talaalka kaliya ee Janssen.

- **Waxa aan u sheegey shaqalaaha xarunta caafimaadka waxa aan u arko inay run tahay oo ay sax tahay ee ku saabsan talaalka COVID-19 (ama bukaanka sare) ee aan qaatay markii kowaad (sida, Pfizer-BioNTech, Moderna).**
- **Waxa aan u sheegey shaqalaaha xarunta caafimaadka waxa aan u arko inay run tahay oo ay sax tahay ee ku saabsan taariikhda (ama bukaanka sare) aan qaatay talaalka kowaad ee COVID-19.**

Waaxda Caafimaadka Vermont Talaalka Labaad ee COVID-19 Foomka Ogolaanshaha

- Waxa aan fahansanahay in Waaxda Caafimaadka Vermont iyo xarunteeda talaalku ayna xaqiijin karin runta (ama bukaanka sare) talaalka kowaad ee aan hore u qaatay (sida, Pfizer-BioNTech, Moderna).
- Waxaan akhriyay macluumaadka sare ee Xarunta Ka hortaga iyo Xakamaynta Xanuunka (Centers for Disease Control and Prevention, CDC) wixii ku saabsan isku badalka talaalada COVID-19 ee ka hadhay badalka nooca talaalka labaad ee la qaadanayo.
- Waxa aan fahmay amaanka iyo wax ku oolnimada qaadashada labada nooc ee talaal ee COVID-19 (sida, qaadashada Moderna marka kowaad iyo Pfizer-BioNTech marka labaad) in aan la daraasadaynin oo aan la garanaynin.

Saxeexa Bukaanka: _____

Taariikhda Foomka Ogolaanshaha La Saxeexay:

Saxeexa Waalidka/Koriyaha Sharciga ah- (hadii bukaanku uu ka yar yahay 18)

*Hadii ilmaha yar uu gobolku gacanta ku hayo, saxeexa wakiilka loo ogol yahay ayaa loo baahan yahay.

Magaca Waalidka/Koriyaha Sharciga ah (fadlan qor): _____

Lambarka Taleefanka Maalintii ee Waalidka/Koriyaha Sharciga ah**:

**Hadii waalidka/koriyuhu aanu imanaynin xarunta caafimaadka.
