

Remdesivir Request Form

Remdesivir is available in limited supply in the state of Vermont. Working with the Vermont Department of Health, The University of Vermont Medical Center main pharmacy is facilitating distribution throughout the state. To obtain Remdesivir for your patient, please call the UVMHC main pharmacy at 802-847-2880 to talk with a pharmacist.

If your patient is not intubated or not receiving ECMO, 6 vials will be dispensed (5 days of treatment). If your patient has not shown signs of improvement at 5 days, then please call again to request an additional 5 days of treatment.

If your patient is intubated, 11 vials will be dispensed (10 days of treatment).
