Current Outbreak Shows We Need to Do Our Part to Stop the Spread of COVID-19
State Epidemiologist Patsy Kelso and Commissioner of Financial Regulation Michael Pieciak presented details Friday of what started as an outbreak of COVID-19 at a central Vermont hockey rink and led to four more outbreaks.

Officials at Friday’s press conference said the outbreak now stands at 87 cases, impacting 18 towns and four counties, and resulting in 473 contacts identified.

Kelso said contact tracers found some themes that contributed to the spread, including people gathering without wearing masks and people failing to quarantine — after they had been identified as a close contact, returned from travel, or had COVID-like symptoms.

Some people continued their daily activities while they were still waiting for COVID test results or denied symptoms during health screenings, she added.

“We know that not everybody with COVID-19 has symptoms, but if you do have symptoms that could be due to COVID-19, it’s important to pay attention to those yourselves so you can be monitoring your own health,” Kelso said. “But also, report if you have symptoms. Don’t go to venues or events.”

Health Commissioner Mark Levine, MD, said that as the virus makes a dangerous comeback in many parts of the country, “this is the worst time to let COVID fatigue set in.”

Dr. Levine reminded Vermonters to keep social circles small and agree on the ground rules for any interaction. He also urged Vermonters to consider forgoing travel — “a hard holiday
message to deliver, but it just may not be worth the risk.” If you do travel or have people visiting you, know the quarantine rules.

“And, we can choose activities with the lowest risk possible. I’ll repeat this simple guide again: keep 6-foot spaces, masks on faces and avoid crowded places. The more of these things you can do, the less risky it will be,” Dr. Levine said. “And the less risk we take on, the more we can protect our classmates, co-workers, and our own families. Please, keep this in mind if you celebrate Halloween this weekend.”

**COVID-19 Data Dashboard Improvements**

The [Dashboard of COVID-19 Activity in Vermont](https://healthvermont.gov/currentactivity) has undergone some changes to improve the user experience. Thank you to all who provided feedback through our website survey. See the complete list of changes by clicking [NEW: 10/29/20 Dashboard Improvements](https://healthvermont.gov/currentactivity).

Get Your Flu Shot!

It’s especially important for everyone to get their flu shot this year – when flu viruses and the new coronavirus may be spreading at the same time. Help keep flu out of the picture!

We encourage everyone older than 6 months old (with rare exceptions) — and especially people in a high-risk group or who have underlying health conditions — to get their flu vaccine. Learn more about the flu and find a flu shot.

Guidance for Vermonters and Businesses

- Health information, guidance and data: healthvermont.gov/covid19

Traveler Information

Visit our Travel to Vermont web page for information and guidance, including about quarantine requirements, testing and to sign up with Sara Alert for symptom check reminders. The cross-state travel map is updated each Tuesday.

Getting Tested for COVID-19

Anyone can get tested, but not everyone needs to get tested.

Talk with your health care provider If you think you should be tested for COVID-19.

- If you don’t have a provider, dial 2-1-1, or contact the nearest federally qualified health center or one of Vermont's free & referral clinics.

Visit our testing web page for more guidance and where to get tested if you do need it.
Take Care of Your Emotional and Mental Health
If you or someone you know is in crisis or needs emotional support, help is available 24/7:

- Call your local mental health crisis line.
- Call the National Suicide Prevention Lifeline at 1-800-273-8255.
- Text VT to 741741 to talk with someone at the Crisis Text Line.
- For more information visit healthvermont.gov/suicide.

Get self-help tips and connect to mental health services at COVID Support VT. See ways for Coping with Stress.
