

The Vaccines Due by Practice provides a list of all patients who are due for an immunization. This report can help identify patients that are not counted as up to date on a vaccine in the quarterly immunization data reports, or you want to outreach individuals who are not up to date on their immunizations.

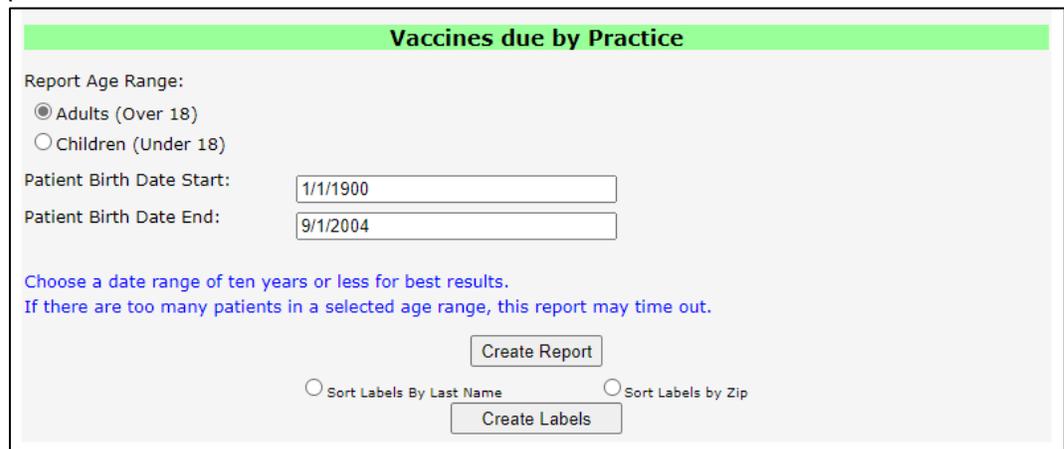

Steps

1. Click **Vaccines Due by Practice** under Practice Reports on the left side of the screen.

Practice Reports
Patient List by DOB
Practice View: Vaccine Coverage
Vaccines due by Practice
Not up to Date Report
Generate Labels for Recall Notices
Invalid Doses
Objections and Contraindications for Practice

2. Select the age range you are looking for information on. Enter the more specific patient birth start and end dates.

Vaccines due by Practice

Report Age Range:

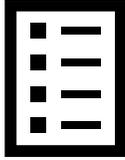

Adults (Over 18)
 Children (Under 18)

Patient Birth Date Start:

Patient Birth Date End:

Choose a date range of ten years or less for best results.
If there are too many patients in a selected age range, this report may time out.

Sort Labels By Last Name Sort Labels by Zip

3. Click **Create Report**. Or if you would like to create labels, choose how to sort the labels, and click Create Labels.
