6. Age-Sex Distributions of Vermont Counties, 2010 Census and 2018, 2019 Estimates .....	29

## SUMMARY

This report contains Vermont census counts of population for 2010, and population estimates for 2018 and 2019. Population totals for counties and towns are presented (Figures 1 and 4, Tables 2 and 3). A listing of towns ranked in order of decreasing 2019 population is provided (Table 4). In addition, the age-sex distributions for the state and counties are given (Tables 5, 6). Historical population data for Vermont counties are provided in Table 1.

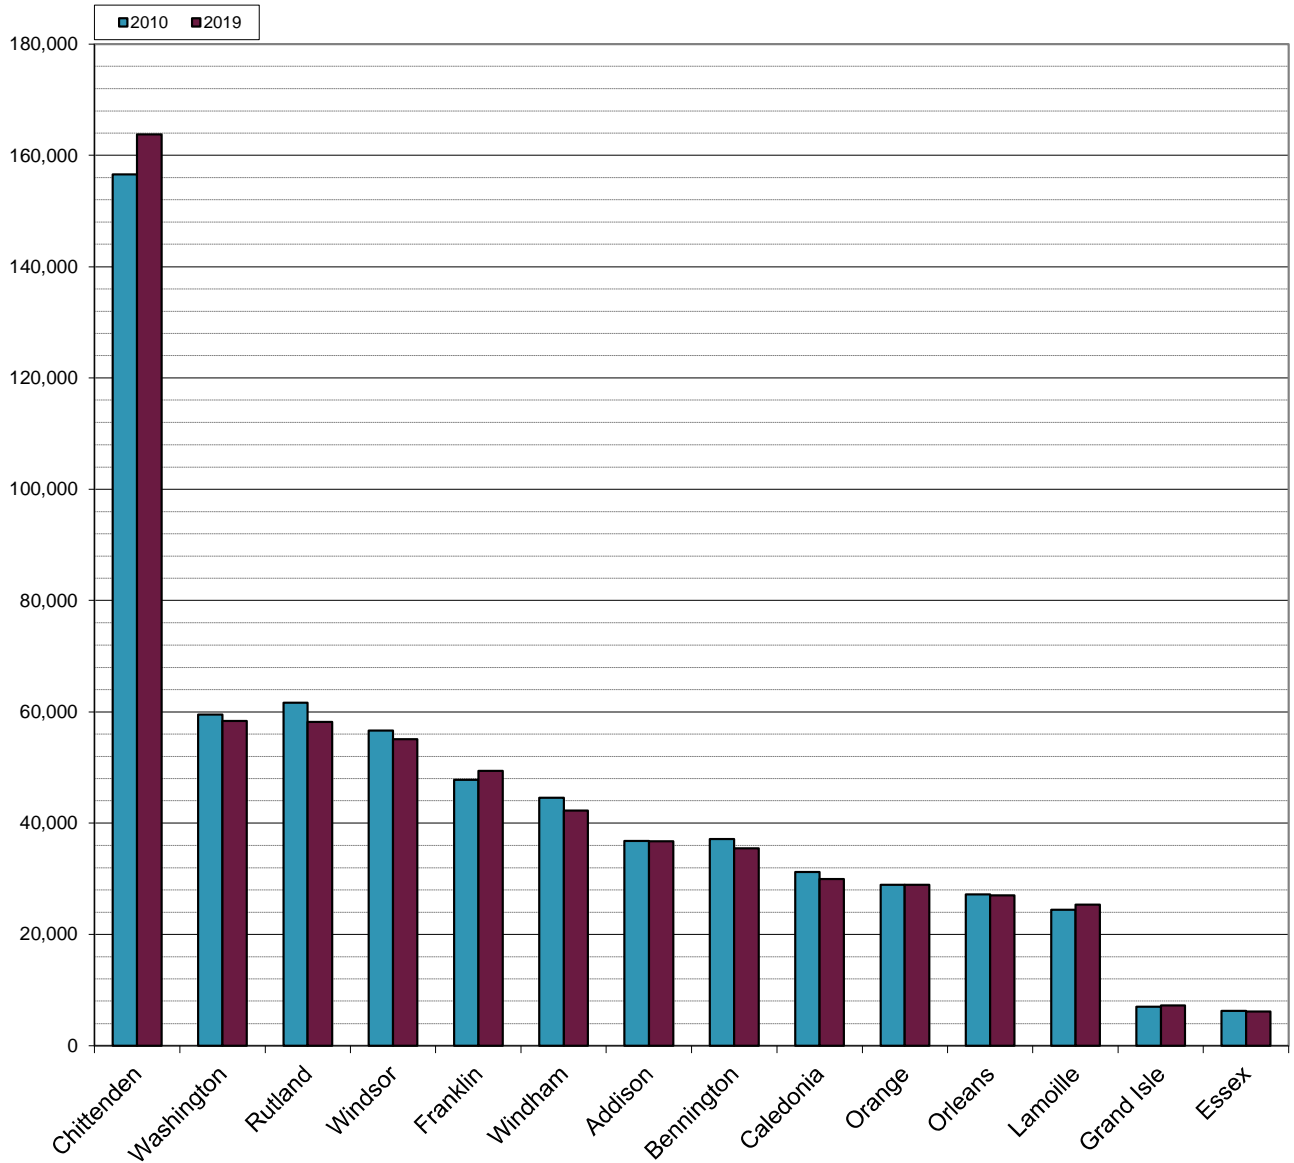

The population of Vermont was estimated to be 623,989 on July 1, 2019 (Table 1), lower than the Census 2010 count of 625,741. This is a decrease of 1,752 people from the 2010 census. Net migration in Vermont from 2010 to 2019 indicates an overall out-migration of 3,068 people (Table 2) since the 2010 Census. Net migration is calculated as the difference between population change and natural increase (births minus deaths). Only four counties showed growth in population since 2010; Chittenden, Grand Isle, Lamoille and Franklin (Figure 3, Table 2). Rutland, Windham, Bennington, and Caledonia counties show the largest rate of decline in population since the 2010 Census count.

Of the 255 towns and cities in Vermont, nine had total 2018 populations that exceeded 10,000 (Figure 4, Tables 3 and 4). These nine places accounted for 26.2 percent of the state's population. Eighty-nine towns had resident populations less than 1,000 people, and three unorganized places in Essex County had no permanent residents (Avery's Gore, Lewis and Warner's Grant). Due to limitations in the data available for many towns, estimates may vary substantially from year to year. Observing the population trend for several years gives a sense of the true population picture.

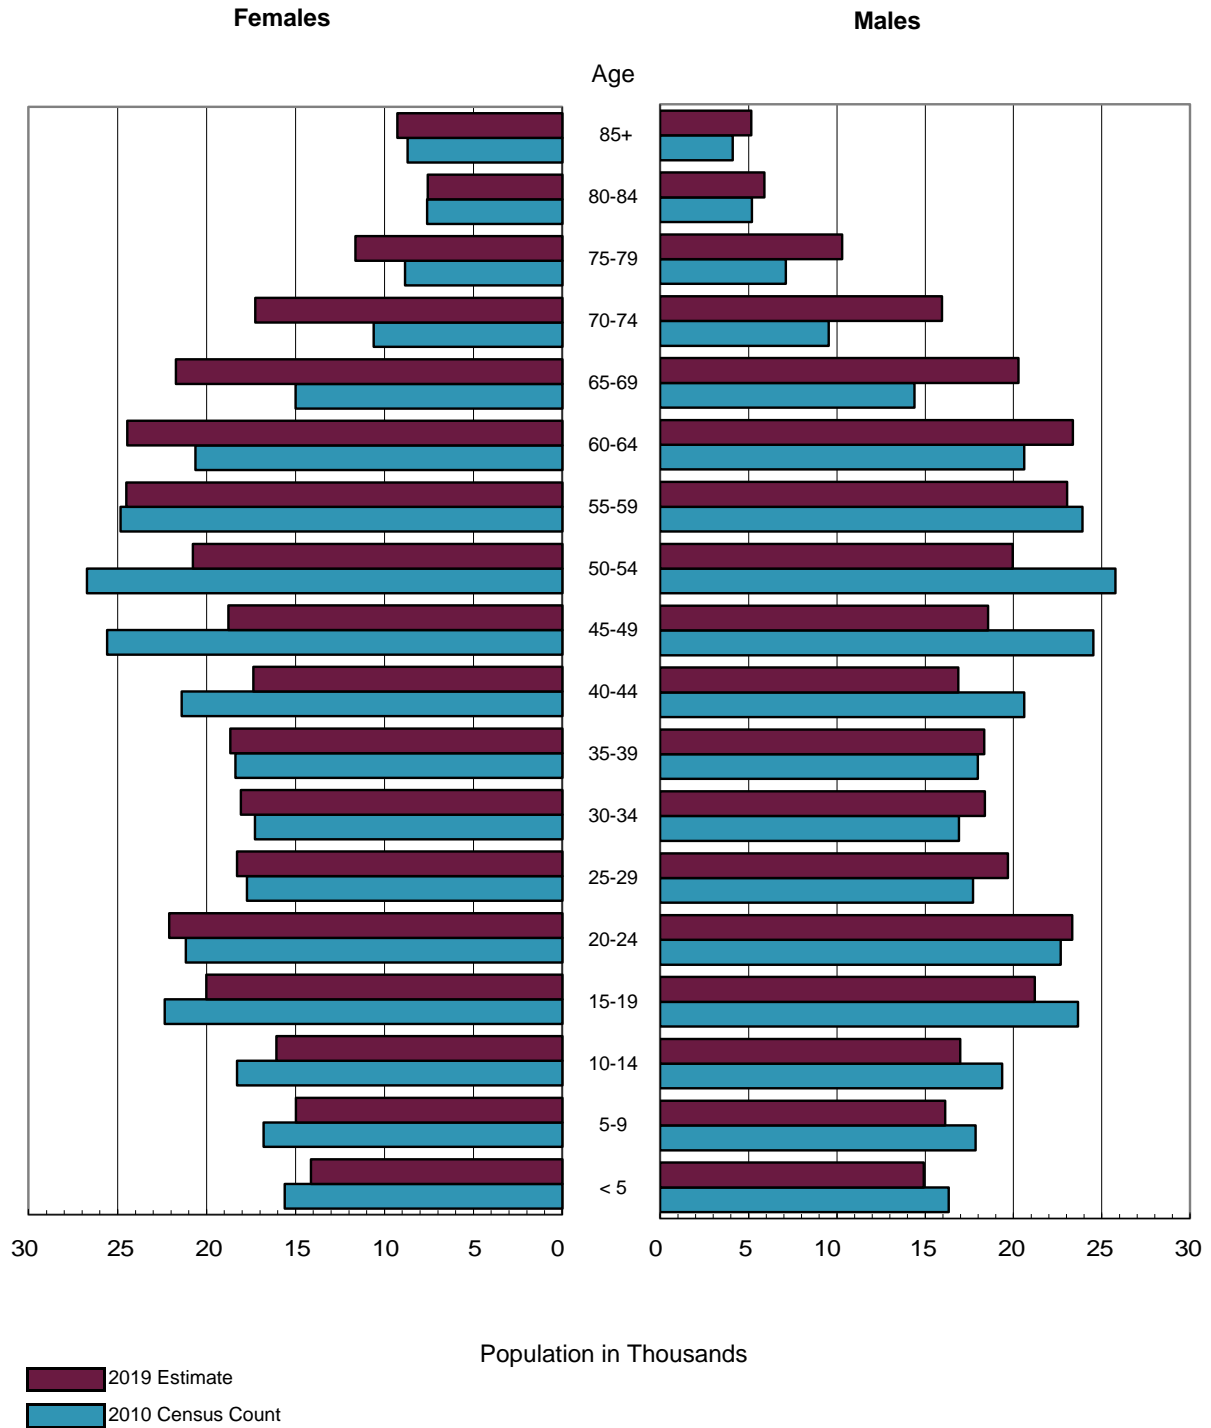

The fastest growing segment of the Vermont population is the 60-79 years old age group (Figure 2, Table 6). There has been a decline since the 2010 Census in the under 20 population, as well as in the 40-59 age group.

The estimates published here were produced for the National Center for Health Statistics (NCHS) by the United States Census Bureau. Information about the Census Bureau's estimate methodology is available at [www.census.gov](http://www.census.gov).
