Table 2B - Counts of Top 2019 Outpatient Procedures

Procedures displayed include the number of cases for each community hospital's top outpatient surgical procedure from 10/1/2018 to 9/30/2019. Hospital System Number of Cases and Average Gross Charges include all hospitals. For procedures with fewer than 15 cases are not shown. Blanks in the table indicate that the hospital has fewer than 15 cases for that procedure. The hospital, however, may perform a similar procedure under a different code which requires further information. Note: the surgical cases shown include some anesthetic procedures for the treatment of patients.
