

If necessary, then VDH requests ANR§§ to issue a permit to VAAFM for taking endangered, threatened, or special concern species.

## **7. Preparation of Final GIS Data**

VAAFM coordinates mapping of mosquito treatment sensitive areas within designated VDH spray areas, using data layers (no-spray zones/buffered areas) chosen by VAAFM and the Northeast Organic Farming Association.

## **8. Emergency Room and Poison Control Contacts**

VDH contacts and provides pesticide illness surveillance guidance to emergency departments, poison control centers, and District Offices.

## **9. Notification of Date and Time of Application**

VAAFM and VDH publicizes the locations, dates, and times of aerial spraying. VAAFM posts a map of the aerial spray area to a website and updates this site during spray operations. VDH provides telephone number(s) for public inquiries.

## **10. Operational Procedures-Aerial Application**

VAAFM ensures that contractors are licensed and experienced and that the aerial application operational procedures comply with Vermont Aviation and FAA guidelines and standards.
