**PROVIDER AGREEMENT**

*To receive publicly funded vaccines at no cost, I agree to the following conditions, on behalf of myself and all the practitioners, nurses, and others associated with the health care facility of which I am the medical director or equivalent:*

1. I will annually submit a provider profile representing populations served by my practice/facility. I will submit more frequently if 1) the number of children served changes or 2) the status of the facility changes during the calendar year.

2. I will screen patients and document eligibility status at each immunization encounter for VFC eligibility (i.e., federally or state vaccine-eligible) and administer VFC-purchased vaccine by such category only to children who are 18 years of age or younger who meet one or more of the following categories:

   A. Federally Vaccine-eligible Children (VFC eligible)
      1. Are an American Indian or Alaska Native;
      2. Are enrolled in Medicaid;
      3. Have no health insurance;
      4. Are underinsured: A child who has health insurance, but the coverage does not include vaccines; a child whose insurance covers only selected vaccines (VFC-eligible for non-covered vaccines only). Underinsured children are eligible to receive VFC vaccine only through a Federally Qualified Health Center (FQHC), or Rural Health Clinic (RHC) or under an approved deputation agreement.

   B. State Vaccine-eligible Children
      1. In addition, to the extent that my state designates additional categories of children as “state vaccine-eligible”, I will screen for such eligibility as listed in the addendum to this agreement and will administer state-funded doses (including 317 funded doses) to such children.

   Children aged 0 through 18 years that do not meet one or more of the eligibility federal vaccine categories (VFC eligible), are **not** eligible to receive VFC-purchased vaccine.

3. For the vaccines identified and agreed upon in the provider profile, I will comply with immunization schedules, dosages, and contraindications that are established by the Advisory Committee on Immunization Practices (ACIP) and included in the VFC program unless:
   a) In the provider’s medical judgment, and in accordance with accepted medical practice, the provider deems such compliance to be medically inappropriate for the child;
   b) The particular requirements contradict state law, including laws pertaining to religious and other exemptions.

4. I will maintain all records related to the VFC program for a minimum of three years and upon request make these records available for review. VFC records include, but are not limited to, VFC screening and eligibility documentation, billing records, medical records that verify receipt of vaccine, vaccine ordering records, and vaccine purchase and accountability records.

5. I will immunize eligible children with publicly supplied vaccine at no charge to the patient for the vaccine.

6. I will not charge a vaccine administration fee to non-Medicaid federal vaccine eligible children that exceeds the administration fee cap of $21.22 per vaccine dose. For Medicaid children, I will accept the reimbursement for immunization administration set by the state Medicaid agency or the contracted Medicaid health plans.
7. I will not deny administration of a publicly purchased vaccine to an established patient because the child’s parent/guardian/individual of record is unable to pay the administration fee.

8. I will distribute the current Vaccine Information Statements (VIS) each time a vaccine is administered and maintain records in accordance with the National Childhood Vaccine Injury Act (NCVIA), which includes reporting clinically significant adverse events to the Vaccine Adverse Event Reporting System (VAERS).

9. I will comply with the requirements for vaccine management including:
   a) Ordering vaccine and maintaining appropriate vaccine inventories;
   b) Not storing vaccine in dormitory-style units at any time;
   c) Storing vaccine under proper storage conditions at all times. Refrigerator and freezer vaccine storage units and temperature monitoring equipment and practices must meet Vermont Immunization Program storage and handling recommendations and requirements;
   d) Returning all spoiled/expired public vaccines to CDC’s centralized vaccine distributor within six months of spoilage/expiration.

10. I agree to operate within the VFC program in a manner intended to avoid fraud and abuse. Consistent with "fraud" and "abuse" as defined in the Medicaid regulations at 42 CFR § 455.2, and for the purposes of the VFC Program:

    **Fraud:** is an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable federal or state law.

    **Abuse:** provider practices that are inconsistent with sound fiscal, business, or medical practices and result in an unnecessary cost to the Medicaid program, (and/or including actions that result in an unnecessary cost to the immunization program, a health insurance company, or a patient); or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes recipient practices that result in unnecessary cost to the Medicaid program.

11. I will participate in VFC program compliance site visits including unannounced visits, and other educational opportunities associated with VFC program requirements.

12. For pharmacies, urgent care, or school located vaccine clinics, I agree to:
   a) Vaccinate all “walk-in” VFC-eligible children and
   b) Will not refuse to vaccinate VFC-eligible children based on a parent’s inability to pay the administration fee.

   Note: “Walk-in” refers to any VFC eligible child who presents requesting a vaccine; not just established patients. “Walk-in” does not mean that a provider must serve VFC patients without an appointment. If a provider’s office policy is for all patients to make an appointment to receive immunizations then the policy would apply to VFC patients as well.

13. I will report to the Vermont Department of Health immunization data for children under the age of 18 within seven days of the immunization (Vermont Statutes Annotated, 18, Chapter 21 § 1129. Immunization Registry).

14. I understand this facility or the Vermont Immunization Program may terminate this agreement at any time. If I choose to terminate this agreement, I will properly return any unused federal vaccine as directed by the Vermont Immunization Program.
By signing this form, I certify on behalf of myself and all immunization providers in this facility, I have read and agree to the Vaccines for Children enrollment requirements listed above and understand I am accountable (and each listed provider is individually accountable) for compliance with these requirements.

VACCINES OFFERED (select only one box)

☐ All ACIP Recommended Vaccines for children 0 through 18 years of age

☐ Offers Select Vaccines (This option is only available for facilities designated as Specialty Providers by the VFC Program)

A “Specialty Provider” is defined as a provider that only serves (1) a defined population due to the practice specialty (e.g. OB/GYN; STD clinic; family planning) or (2) a specific age group within the general population of children ages 0-18. Local health departments and pediatricians are not considered specialty providers. The VFC Program has the authority to designate VFC providers as specialty providers. At the discretion of the VFC Program, enrolled providers such as pharmacies and mass vaccinators may offer only influenza vaccine.

Select Vaccines Offered by Specialty Provider:

☐ DTaP
☐ Hepatitis A
☐ Hepatitis B
☐ HIB
☐ HPV
☐ Influenza

☐ Meningococcal Conjugate
☐ MMR
☐ Pneumococcal Conjugate
☐ Pneumococcal Polysaccharide
☐ Polio
☐ Rotavirus

☐ TD
☐ Tdap
☐ Varicella
☐ Other, specify:
PROVIDER POPULATION

Provider Population based on patients seen during the previous 12 months. Report the number of children who received vaccinations at your facility, by age group. Only count a child once based on the status at the last immunization visit, regardless of the number of visits made. The following table documents how many children received VFC vaccine, by category, and how many received non-VFC vaccine.

<table>
<thead>
<tr>
<th>VFC Vaccine Eligibility Categories</th>
<th># of children who received VFC Vaccine by Age Category</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
<tr>
<td>Children’s Health Insurance Program (CHIP)(^3)</td>
<td></td>
</tr>
<tr>
<td><strong>Total Non-VFC:</strong></td>
<td></td>
</tr>
</tbody>
</table>

**Total Patients** (must equal sum of Total VFC + Total Non-VFC)

\(^1\)Underinsured includes children with health insurance that does not include vaccines or only covers specific vaccine types. Children are only eligible for vaccines that are not covered by insurance.

In addition, to receive VFC vaccine, underinsured children must be vaccinated through a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) or under an approved deputized provider. The deputized provider must have a written agreement with an FQHC/RHC and the state/local/territorial immunization program in order to vaccinate these underinsured children.

\(^2\)Other underinsured are children that are underinsured but are not eligible to receive federal vaccine through the VFC program because the provider or facility is not a FQHC/RHC or a deputized provider. However, these children may be served if vaccines are provided by the state program to cover these non-VFC eligible children.

\(^3\)CHIP – Children enrolled in the state Children’s Health Insurance Program (CHIP). These children are considered insured and are not eligible for vaccines through the VFC program. Each state provides specific guidance on how CHIP vaccine is purchased and administered through participating providers.

2019-2021 Provider Agreement and Guidelines for Frozen Vaccines

STORAGE REQUIREMENTS: If you wish to receive frozen vaccine you will have to complete this signed agreement showing that your practice meets the following guidelines for proper storage and handling.

a) Merck & Company, Inc. the manufacturer of frozen vaccine will pack and ship vaccine directly to the provider office after receiving an order from CDC which is submitted through Vaccine Inventory Management System (VIMS).

b) Vaccines **MUST** be stored in a freezer, and **MUST** maintain temperatures between -15°C to -50°C (+5°F to -58°F).

c) The freezer **MUST** have a separate door from the refrigerator, (e.g. stand alone freezer). Dorm-style or larger refrigerator/freezer combinations where the freezer is within the refrigerator is **NOT** acceptable.

d) A continues monitoring device (data logger) with current certificate of traceability and calibration must be placed in the freezer.

e) Freezer Max/Min temperatures must be recorded once a day as well as time and initials for each reading and any out of range temperatures **MUST** be reported to the Immunization Program immediately. Please call 1-802-863-7638.

f) State and/or VFC supplied frozen vaccine **cannot be moved or redistributed from the provider site that received it without permission from the Vermont Immunization Program.**
