## Logging into the Vermont Immunization Registry

- Open Google Chrome, Mozilla Firefox, or Microsoft Edge.
- Search for Vermont Immunization Registry.
- Select the option, saying Immunization Registry – Vermont Department of Health. OR type <https://www.healthvermont.gov/stats/registries/immunization-registry> in the address bar.
- Click the Immunization Registry graphic halfway down the page to log into the registry.
- Enter your username, password, and click OK.

## Immunization Registry

### In This Section:

[Amyotrophic Lateral Sclerosis Registry](#) | [Immunization Registry](#) | [Vermont Prescription Monitoring System \(VPMS\)](#)

## Immunization Records in Vermont

The Vermont Immunization Registry (IMR) is a secure, centralized health system that contains immunization records for Vermonters. Medical providers use the IMR to find patient histories for new patients, and print IMR reports need these records for school and child care entry. School nurses use immunization coverage reporting.

Because the IMR contains records for all persons born in (or seeking Vermont), medical providers use it to explore immunization coverage in their practice and identify persons who are not up to date for immunization. The IMR is a tool for reducing vaccine-preventable disease.

## Immunization Registry Login

If you have forgotten your username or password, please contact the support line at (888) 688-4667 or by emailing [IMR@vermont.gov](mailto:IMR@vermont.gov).

Access to the Registry is limited by law.

## The Basics

### Searching for a Patient

- Click **Search Patient**.
- Enter the patient's last name, first name, and date of birth. (Use the Tab key or mouse to move between cells)
- Click **Find**. A list of possible matches will be displayed.
- Click **Select** next to the correct patient's name.

**Actions:**

[Search Patient](#)

[Current Patient](#)

[Vaccine Library](#)

**Programs:**

[Immunization Registry](#)

**Search Patient**

TIP: Please do not use "wild card searches, where you enter "J" or "J\*" to find a record for "Jenkins" -- even if you have done so in the past. These searches make it easy to miss finding a record.

Best practice: enter last name AND first name AND date of birth.

First Name:  Date of Birth:

Last Name:

Identifiers:

Search Results:

	IMR Patient	Last Name	First Name	Middle Name	Date of Birth
<a href="#">Select</a>	<input checked="" type="checkbox"/>	Cotton	Candy		1/1/1950

1

**Note:** If no patient is found, click **Add New**. (See page five for adding/editing patient information)

## Viewing Immunizations

From the Patient Information screen, click the blue **Immunization Registry** link on the left side of the screen. (If it is grayed out, or nothing happens when you click on it, that means that we are missing required information in the demographic fields.)

**Actions:**  
[Search Patient](#)  
[Current Patient](#)  
[Vaccine Library](#)

**Programs:**  
[Immunization Registry](#)

**Patient Information**

Patient ID:  IMR Status:

Preferred Name:  \*Primary Practice:

First Name:  \*Date of Birth:

Middle Name:  \*Gender:

\*Last Name:  \*Residence:

Suffix:   Out of State

The vaccine grid is organized with COVID vaccine at the top, common childhood immunizations next, and common adult vaccines at the bottom. Uncommon vaccines will be listed on the grid if the vaccine was reported for that patient. See the patient reports section on how to easily print the immunization record.

	Hep B, adult					
	Hep B, adolescent or pediatric					
	Hep B, adjuvanted					

## The Vaccine Forecaster

### Using the Vaccine Forecaster

This feature provides a list of immunizations due for each patient based on age, immunization history, and the CDC Immunization Schedule.

#### Important!

If you have entered immunizations today for the patient, make sure you have clicked **Save** or **Save Historical Dates** before clicking **Recommendations**.

- Check **Include Vaccination Record** to display a chart indicating not only the immunization dates by series, but whether each immunization is valid according to the ACIP schedule.
- Click **Recommendations**. The forecaster will display which vaccines can be given, which vaccines are recommended, and which vaccines are overdue.
  - The **Recommended Date** shows the date the next dose should be administered based on the ACIP schedule, the patient age, and previous vaccines given.
  - The **Earliest Date** shows the absolute earliest date an individual could receive the vaccine and still have it be valid. This is helpful for determining Minimum Intervals.

Vaccines Recommended by Tracking Schedule				
Vaccine	Earliest Date	Recommended Date	Overdue Date	Status
DTap NOS	8/29/2020	8/29/2020	8/29/2020	Recommended
Hep A	10/15/2021	10/15/2021	1/28/2022	Recommended
Hib	1/1/2021	4/1/2021	5/28/2021	Recommended
Influenza	7/1/2021	7/1/2021		Recommended
pneumococcal conjugate PCV 13	1/1/2021	1/1/2022	1/1/2022	Recommended
Polio	8/29/2020	8/29/2020	8/28/2021	Recommended
COVID-19 mRNA Pfizer (5 thru 11 yrs)		1/1/2025		Future Recommendation
HPV	1/1/2029	1/1/2031	1/28/2033	Future Recommendation
Meningococcal	1/1/2031	1/1/2031	1/28/2033	Future Recommendation
MMR	2/12/2021	1/1/2024	1/28/2027	Future Recommendation
Varicella	4/9/2021	1/1/2024	1/28/2027	Future Recommendation
Zoster recombinant	1/1/2070	1/1/2070		Future Recommendation

Vaccines Not Recommended or Conditionally Recommended by Tracking Schedule		
Vaccine	Status	Message
Hep B	Not Recommended	Completed vaccine series.
Meningococcal B	Not Recommended	Below minimum age for this high risk series.
Rotavirus	Not Recommended	Vaccine not recommended at this age; too old to initiate.

Vaccination Record			
Vaccine Group (Vaccine)	Date Administered	Status	Evaluation Reason
DTP (DTaP)	3/15/2020	VALID	
DTP (DTaP)	7/10/2020	VALID	
DTP (DTaP)	8/1/2020	INVALID	This immunization event occurred prior to the specified minimum interval for this dose.
Hep A (Hep A ped/adol 2 dose)	4/15/2021	VALID	
Hep B (Hep B peds, less than 20yrs)	1/1/2020	VALID	
Hep B (Hep B peds, less than 20yrs)	3/15/2020	VALID	
Hep B (Hep B adult >=20 yrs)	4/15/2021	VALID	
Hib (Hib-PRP-T (ActHIB, Hiberix))	7/10/2020	VALID	
Hib (Hib-PRP-T (ActHIB, Hiberix))	8/1/2020	INVALID	This immunization event occurred prior to the specified minimum interval for this dose.
MMR (MMR)	1/15/2021	VALID	
Polio (IPV)	3/15/2020	VALID	
Polio (IPV)	7/10/2020	VALID	
			This Immunization event occurred

**Note:** **Pink** shows completed series, **green** shows immunizations due, **blue** shows overdue dates, and all **white** shows the patient is on target with the Immunization Schedule.

## How to Print Forecaster Results

- Click on **Print Forecaster Results** on the left side of the screen under Patient Reports.
- Click **Create Report**. It will open a new window using adobe reader or another .pdf reader.
- To print, click the printer icon on menu bar in the upper left corner.

## Immunization Registry Reports

Using the IMR, you can generate some reports to help you support patients.

**Patient Level Reports** are reports about an individual patient. You may print a patient level report for any person in the system.

If you have a need for information that you believe is contained in the IMR, and you do not see a report that applies, please contact the Immunization Registry Manager. The IMR team can design specialized reports when necessary.

### How do I Find the Reports

Programs:
<b>Immunization Registry</b>
<b>Patient Reports</b>
Immunization Record
Objections and Contraindications
Print Forecaster Results
Vaccine Administration Record

To find the report menu, you must be in a patient record first.

- Click Search Patient. Search for any patient and click select.
- Click the blue **Immunization Registry** link on the left side of the screen. All reports are on the lower left side of the screen.

**Patient Reports** are reports based on an individual. These include several ways of viewing the patient's vaccine history, a report showing the vaccines due according to the Forecaster, and a report documenting the contraindications and objections you have recorded for that patient.

## Immunization Record

This report provides a summary of which vaccines have been administered. This is the best record to use when patients ask for their immunization histories.

- Click **Immunization Record** under Patient Reports on the left side of the screen.
- Click **Create Report**. It will open a new window using an adobe reader or another .pdf reader.

**Actions:**

- Change Practice
- Search Patient
- Current Patient

Pneumococcal conjugate PCV15	04/08/2022		
Varicella			Yes

**Please Note:**

- This record reflects only those immunizations recorded in the Vermont Immunization Registry.
- This record may not reflect the complete immunization history for the patient.
- Accuracy of this report depends on the accuracy and completeness of records entered at the practice.
- Some contraindications may be temporary. Clinician is encouraged to evaluate each patient for immunizations at each visit regardless of whether a contraindication has been recorded.
- Clinician is encouraged to evaluate each patient for immunizations at each visit regardless of whether an objection has been recorded.

10

## Troubleshooting

**If you try to login, but when you click OK with your username and password, the whole page disappears –**

- You most likely have a pop-up blocker in place.
- **If using Mozilla Firefox.** Go to  → options → content → pop-up blocker exceptions. Add our program address:  
<https://apps.health.vermont.gov/PatientProfile/default.aspx>
- **If using Microsoft Edge.** Go to  → Privacy and security → Block pop-ups → switch to “off”.
- **If using Google Chrome.** Go to  → Settings → Security and Privacy → Site Settings → Pop-ups and redirects customized behaviors → Add → <https://apps.health.vermont.gov/PatientProfile/default.aspx>
- Or call us toll free for help at 1-888-688-4667

**If you have forgotten your password or your password has expired–**

- Please call 1-888-688-4667 for help. Representatives are available weekdays between 7:45 am and 4:30 pm.

**If the window asking for your username and password keeps coming back even though you have double checked that you are entering it correctly –**

- If a password is entered incorrectly multiple times, the account will lock up, such that even if you enter the correct password after that, it will not allow you to login. We recommend waiting for 10 minutes and then trying again with the correct password.

**If you try to open a report, but when you click Create Report, nothing happens –**

- Our reports require a .pdf reader to view them. You can download Adobe Reader for free or use another reader of your choice if you prefer.
- Find Adobe Acrobat here: <https://get.adobe.com/reader/>
- Or call us toll free for help at 1-888-688-4667.

**If you find more than one record for a patient –**

- Please call us at 1-888-688-4667.
- Enter information into either record – we will merge them together.

**If you get a message saying Chrome, Firefox and Edge are the only supported browsers for the Vermont Immunization Registry –**

- Some computers have another browser, like Safari (Apple) set up to open by default. The Immunization Registry is only accessible through three browsers: Google Chrome, Mozilla Firefox, and Microsoft Edge.

**If you need further assistance –**

- Email the Immunization Registry Team at [imr@vermont.gov](mailto:imr@vermont.gov) or
- Call 1-888-688-4667 weekdays between 7:45 am and 4:30 pm.
