Logging into the Vermont Immunization Registry

- Open Google Chrome, Mozilla Firefox, or Microsoft Edge.
- Search for Vermont Immunization Registry.
- Select the option, saying Immunization Registry – Vermont Department of Health. OR type <https://www.healthvermont.gov/health-statistics-vital-records/registries/immunization> in the address bar.
- Click the Immunization Registry graphic halfway down the page to log into the registry.
- Enter your username, password, and click OK.

IMMUNIZATION REGISTRY

GETTING A COVID-19 VACCINE

The Vermont Immunization Registry (IMR) is a secure health information system that contains immunization records for persons living in Vermont. Medical providers use the IMR to report immunization records for school and child care enrollment.

Because the IMR contains records for all persons born in Vermont, it is a valuable tool for assessing, for instance, pockets of non-vaccination. It is a valuable tool for improving vaccination rates and reducing vaccine-preventable disease.

*IMR User Guidance: Using the New Forecaster

If you have forgotten your username or password, please contact the support line at (888) 688-4667 or by emailing IMR@vermont.gov.

Access to the Registry is limited by law.

The Basics

Searching for a Patient

- Click **Search Patient**.
- Enter the patient’s last name, first name, and date of birth. (Use the Tab key or mouse to move between cells)
- Click **Find**. A list of possible matches will be displayed.
- Click **Select** next to the correct patient’s name.

Actions:
[Search Patient](#)
[Current Patient](#)
[Vaccine Library](#)

Programs:
[Immunization Registry](#)

Search Patient

TIP: Please do not use "wild card searches, where you enter "J" or "J*" to find a record for "Jenkins" -- even if you have done so in the past. These searches make it easy to miss finding a record.

Best practice: enter last name AND first name AND date of birth.

First Name: Date of Birth:

Last Name:

Identifiers:

Search Results:

	IMR Patient	Last Name	First Name	Middle Name	Date of Birth
Select	<input checked="" type="checkbox"/>	Candy	Milky Way		1/1/2011
1					

Note: Access is limited to individuals under the age of 25 years of age. Immunization data will not be accessible for individuals over that age.

Viewing Immunizations

From the Patient Information screen, click the blue **Immunization Registry** link on the left side of the screen. (If it is grayed out, or nothing happens when you click on it, that means that we are missing required information in the demographic fields.)

Actions:

- [Search Patient](#)
- [Current Patient](#)
- [Vaccine Library](#)

Programs:

- [Immunization Registry](#)

Patient Information

Patient ID:	<input type="text"/>	IMR Status:	<input type="text" value="Active"/>
Preferred Name:	<input type="text"/>	*Primary Practice:	<input type="text" value="Bella Pediatrics"/>
First Name:	<input type="text" value="Milky Way"/>	*Date of Birth:	<input type="text" value="1/1/2011"/>
Middle Name:	<input type="text"/>	*Gender:	<input type="text" value="Male"/>
*Last Name:	<input type="text" value="Candy"/>	*Residence:	<input type="text" value="Middlebury (Town of)"/>
Suffix:	<input type="text"/>	<input type="checkbox"/> Out of State	

The vaccine grid is organized with COVID vaccine at the top, common childhood immunizations next, and common adult vaccines at the bottom. Uncommon vaccines will be listed on the grid if the vaccine was reported for that patient. See the patient reports section on how to easily print the immunization record.

Patient Summary

Patient: Candy, Milky Way Date of Birth: 1/1/2011 Patient Age: 11 years 4 months and 4 days
 Residence: Middlebury (Town of) Practice Name: Bella Pediatrics

The Vermont Immunization Registry is a tool to assist in tracking and forecasting immunizations currently due and overdue, based on date of birth. It is not intended to replace medical expertise.

Immunizations

Enter immunizations as:
 Current Historical

Status	Vaccine	Dose 1	Dose 2	Dose 3	Dose 4	Dose 5
	COVID-19 mRNA Pfizer (5 thru 11 yrs)	10/1/2021	12/1/2021			
	COVID-19, mRNA LNP-S, PF, Moderna					
	COVID-19, mRNA LNP-S, PF, Pfizer					
	COVID-19, vector-nr, Janssen					
	COVID-19, mRNA, Pfizer (2-4 yrs)					
	COVID-19, mRNA LNP-S, PF, tris-sucro...					
	DTaP-Hep B-IPV	3/10/2011				
	Hib (PRP-T)					
	DTaP-Hib-IPV					
	pneumococcal conjugate PCV 13	7/20/2011				

The Vaccine Forecaster

Using the Vaccine Forecaster

This feature provides a list of immunizations due for each patient based on age, immunization history, and the CDC Immunization Schedule.

- Check **Include Vaccination Record** to display a chart indicating not only the immunization dates by series, but whether each immunization is valid according to the ACIP schedule. If an immunization was invalid, this gives the explanation of the reason it was invalid.
- Click **Recommendations**. The forecaster will display which vaccines can be given, which vaccines are recommended, and which vaccines are overdue.
 - The **Recommended Date** shows the date the next dose should be administered based on the ACIP schedule, the patient age, and previous vaccines given.
 - The **Earliest Date** shows the absolute earliest date an individual could receive the vaccine and still have it be valid. This is helpful for determining Minimum Intervals.

Td, adult, preservative free
Zoster recombinant

Recommendations Include Vaccination Record

Vaccines Recommended by Tracking Schedule				
Vaccine	Earliest Date	Recommended Date	Overdue Date	Status
DTaP NOS	8/29/2020	8/29/2020	8/29/2020	Recommended
Hep A	10/15/2021	10/15/2021	1/28/2022	Recommended
Hib	1/1/2021	4/1/2021	5/28/2021	Recommended
Influenza	7/1/2021	7/1/2021		Recommended
pneumococcal conjugate PCV 13	1/1/2021	1/1/2022	1/1/2022	Recommended
Polio	8/29/2020	8/29/2020	8/28/2021	Recommended
COVID-19 mRNA Pfizer (5 thru 11 yrs)		1/1/2025		Future Recommendation
HPV	1/1/2029	1/1/2031	1/28/2033	Future Recommendation
Meningococcal	1/1/2031	1/1/2031	1/28/2033	Future Recommendation
MMR	2/12/2021	1/1/2024	1/28/2027	Future Recommendation
Varicella	4/9/2021	1/1/2024	1/28/2027	Future Recommendation
Zoster recombinant	1/1/2070	1/1/2070		Future Recommendation

Vaccines Not Recommended or Conditionally Recommended by Tracking Schedule		
Vaccine	Status	Message
Hep B	Not Recommended	Completed vaccine series.
Meningococcal B	Not Recommended	Below minimum age for this high risk series.
Rotavirus	Not Recommended	Vaccine not recommended at this age; too old to initiate.

Vaccination Record			
Vaccine Group (Vaccine)	Date Administered	Status	Evaluation Reason
DTP (DTaP)	3/15/2020	VALID	
DTP (DTaP)	7/10/2020	VALID	
DTP (DTaP)	8/1/2020	INVALID	This immunization event occurred prior to the specified minimum interval for this dose.
Hep A (Hep A ped/adol 2 dose)	4/15/2021	VALID	
Hep B (Hep B peds, less than 20yrs)	1/1/2020	VALID	
Hep B (Hep B peds, less than 20yrs)	3/15/2020	VALID	
Hep B (Hep B adult >=20 yrs)	4/15/2021	VALID	
Hib (Hib-PRP-T (ActHIB, Hiberix))	7/10/2020	VALID	
Hib (Hib-PRP-T (ActHIB, Hiberix))	8/1/2020	INVALID	This immunization event occurred prior to the specified minimum interval for this dose.
MMR (MMR)	1/15/2021	VALID	
Polio (IPV)	3/15/2020	VALID	
Polio (IPV)	7/10/2020	VALID	
Polio (IPV)			This immunization event occurred

Note: **Pink** shows completed series, **green** shows immunizations due, **blue** shows overdue dates, and all **white** shows the patient is on target with the Immunization Schedule.

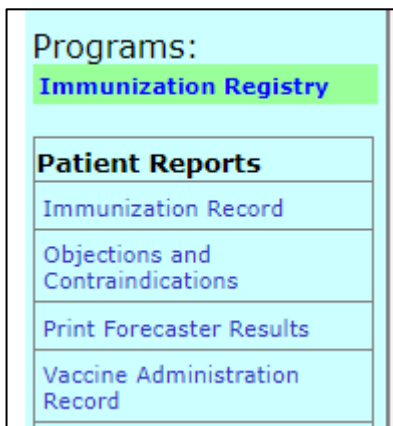

Immunization Registry Reports

Using the IMR, you can generate some reports to help you support students.

Patient Level Reports are reports about an individual. You may print a patient level report for any person under the age of 25 years in the system.

If you have a need for information that you believe is contained in the IMR, and you do not see a report that applies, please contact the Immunization Registry Manager. The IMR team can design specialized reports when necessary.

How do I Find the Reports

To find the report menu, you must be in a patient record first.

- Click Search Patient. Search for any patient and click select.
- Click the blue **Immunization Registry** link on the left side of the screen. All reports are on the lower left side of the screen.

Patient Reports are reports based on an individual. These include several ways of viewing the patient's vaccine history, a report showing the vaccines due according to the Forecaster, and a report documenting the contraindications and objections you have recorded for that patient.

Immunization Record

This report provides a summary of which vaccines have been administered. This is the best record to use when patients ask for their immunization histories.

- Click **Immunization Record** under Patient Reports on the left side of the screen.
- Click **Create Report**. It will open a new window using adobe reader or another .pdf reader.

Vaccine Administration Record

This report provides a history of which vaccines have been administered. It includes the vaccine, date of dose, manufacturer, and lot number, provided these fields have been completed. This is the best report to use for adults because it shows only the immunizations given.

- Click **Vaccine Administration Record** under Patient Reports on the left side of the screen.
- Click **Create Report**. Clicking “Provide Covid-19 Vaccination Record” will print a report with only COVID vaccine information. Do not click that option if you want a complete record. It will open a new window using adobe reader or another .pdf reader.

Troubleshooting

If the page disappears when you log in, your browser is blocking the pop-up. You must allow pop-ups.

- **If using Mozilla Firefox.** Go to  → options → content → pop-up blocker exceptions. Add our program address: <http://healthvermont.gov/health-statistics-vital-records/registries/immunization>
- **If using Microsoft Edge.** Go to  → Privacy and security → Block pop-ups → switch to “off”.
- **If using Google Chrome.** Go to  → Settings → Security and Privacy → Site Settings → Pop-ups and redirects customized behaviors → Add → <http://healthvermont.gov/health-statistics-vital-records/registries/immunization>
- Or call us toll free for help at 1-888-688-4667

If you have forgotten your password or your password has expired–

- Please call 1-888-688-4667 for help. Support staff are available weekdays between 7:45 am and 4:30 pm.

If the window asking for your username and password keeps coming back even though you have double checked that you are entering it correctly –

- If the window asking for your username and password keeps coming back after multiple tries, your account has locked. Please wait 10 minutes for it to unlock and try again.

If you try to open a report, but when you click Create Report, nothing happens –

- Our reports require a .pdf reader to view them. You can download Adobe Reader for free or use another reader of your choice if you prefer.
- Find Adobe Acrobat here: <https://get.adobe.com/reader/>
- Or call us toll free for help at 1-888-688-4667.

If you find more than one record for a patient –

- Please call us at 1-888-688-4667.
- Enter information into either record – we will merge them together.

If you get a message saying Chrome, Firefox and Edge are the only supported browsers for the Vermont Immunization Registry –

- Some computers have another browser, like Safari (Apple) set up to open by default. The Immunization Registry is only accessible through three browsers: Google Chrome, Mozilla Firefox, and Microsoft Edge.

If you need further assistance –

- Email the Immunization Registry Team at imr@vermont.gov or
- Call 1-888-688-4667 weekdays between 7:45 am and 4:30 pm.
